GENERAL EDITOR'S FOREWORD

1. On the Context of Transmission of Ottoman Art Music

1.1 Overview: Music Notation Systems and Repertoire Collections in the Ottoman Empire

Among the traditional musical cultures of the Near East, only the Ottoman practical musical repertoire has been preserved since the seventeenth century in written sources that do not primarily serve the purpose of music theory. The sources include music manuscripts in several forms of notation dating back to about 1650, and printed music collections dating from the late nineteenth century onward.

A repertoire collection in the proper sense first emerged around the middle of the seventeenth century with the manuscripts of the Polish-born Alî Ufukî [Albert Bobovski] (c. 1610-75), which are primarily based on a variant of Western staff notation.¹ At the turn of the eighteenth century, the Mevlevî-Şeyh Nâyî Osmân Dede (1652?-c. 1730) and the Moldavian Phanariot Dimitri Cantemir [Tr. Kantemiroğlu] (1673-1723) developed similar notational methods roughly simultaneously.² Both recorded more extensive instrumental repertoires for the first time, with a letter and syllable notation indicating specific pitch levels, in which durations were expressed by numerals. Cantemir's notation was still used in the first half of the eighteenth century by the Mevlevî Mustafa Kevserî Efendi (+ ca. 1770).³ Towards the mid-eighteenth century Tanburi Küçük Artin (+ mid-eighteenth century) used another notation system, but according to current scholarship it was not used to record a musical repertoire.⁴ Finally, in the late-eighteenth century, Mevlevî Abdülbakî Nâsır Dede (1765-1821), at the request of the musically educated Sultan Selîm III. (1761-1808, r. 1789-1807), developed an ebcad notation that served him in 1794/95 to compile a collection of Selîm's compositions for the latter's library. In addition, with the post-Byzantine neumatic notation - also used in the eighteenth century by Greek musicians such as Petros Peloponissios (+ 1777) to record the Ottoman secular repertoire - another, functionally fundamentally different

notation was available in the Empire. Neumatic notation is a recording medium for primarily vocal music; it notates the intervallic progression of melodic lines.⁵

The first notation system to find lasting interethnic dissemination was the so-called Hampartsum notation developed by a group of Armenians around Hampartsum Limonciyan (1768-1839) before 1813. The notation, based on semantically reinterpreted signs of the Armenian Khaz notation, was excellently suited as a recording medium for the Ottoman art music repertoire due to its simplicity and clear structure. From the mid-1830s, Western staff notation was increasingly used alongside it.⁶ The manuscript holdings in both forms of notation are highly relevant for the understanding of the transmission of an art music culture that was cultivated into the early twentieth century in the metropolises of present-day Turkey, as well as in the urban centers of Syria and Egypt. The sources are of outstanding importance for music research, which can for the first time explore historical phenomena and musical cultural processes, as well as for Middle-Eastern studies as a whole.

1.2 On previous editions and publications

Several of the music manuscripts written before the nineteenth century are available today in scholarly-critical editions (see above). The intentional preservation of works of the Ottoman art music tradition - now considered "classical" - in printed editions with scholarly ambitions, began around 1926 at the Istanbul Darü'l-Elhân under the auspices of Rauf Yekta (1871–1935), Ali Rifat Çağatay (1867–1935), and Ahmed Irsoy (1869–1943) with the innovative *Dārü'l-elhân külliyâtı*. Their special quality lay not only in the use of the variant of Western staff notation developed by Rauf Yekta and analytically semanticized for the first time on the basis of mathematical calculations, but also in the fact that the first usûl cycle in each piece is included and presented together with the melodic line in the form of a score.

Unlike the earliest musical manuscripts of Ottoman art music, the extensive corpus of handwritten sources from the nineteenth century has not yet been made available in reliable critical editions. The reason for this is not that the manuscripts are unknown or inaccessible: All authoritative Turkish music researchers are aware of Hampartsum notation, and several printed music editions from as early as the *Dārü'l-elhân külliyâtı* reproduce notational phenomena that clearly refer to sources in Hampartsum notation. This fact has long been known, and Kurt Reinhard even mentioned it as a shortcoming of the editions of the Darü'l-Elhân that, "all source references are missing, the poets are often not named, and critical or

⁵ Sample editions in APOSTOLOPOULOS & KALAITZIDIS 2019.

⁶ A detailed account of the notational situation in the 19th century and of the importance of the manuscript transmission of music develops the Advisor's Foreword, pp. xviii–xxiii.

explanatory annotations are very rarely present".⁷ Rather, it seems to be primarily the interdisciplinary complexity of the challenges of a comprehensive edition project, that have prevented it thus far. Unlike in the context of the singular manuscripts of the seventeenth and eighteenth centuries, scholarly editing here can no longer be undertaken by a single researcher. Not only is the corpus too extensive for this, but the successive indexing of the accessible manuscript collections and the print editions potentially related to them, as well as the development of novel digital infrastructures, is too complex. In addition, indexing of the manuscripts according to accurate philological rules, and editing of the song lyrics for example, requires specialist knowledge of literature studies.

2. "Corpus Musicae Ottomanicae" (CMO) - Project and Edition Concept

The work of an interdisciplinary team on the scholarly indexing and editing of nineteenth century Ottoman music manuscripts has been made possible since 2015 by the project "Corpus Musicae Ottomanicae", which has been approved by the German Research Foundation as a long-term project with a duration of 12 years (DFG project number: 265450875). It encompasses a total of four subprojects: 1.The music edition and its publication (WWU Münster, Professorship of Ethnomusicology and European Music History); 2.The text edition and philological supervision (WWU Münster, Institute of Arabic and Islamic Studies); 3.Digital Humanities including the development of an online source catalog with a publication platform and an MEI extension for the notational parameters of music of the Near East (perspectivia.net, Max Weber Foundation); and 4.Content development of the CMO source catalog and the inclusion of the various project-related works from the international academic community.⁸

The interdisciplinary working CMO team is supported in its work by an Academic Advisory Board, which currently consists of the following scholars: Prof. Rûhî Ayangil (Istanbul), Prof. Dr. Thomas Bauer (Münster), Prof. Dr. Nilgün Doğrusöz-Dişiaçık (Istanbul), Prof. Dr. Walter Feldman (New York), Dr. Michael Kaiser (Bonn), Prof. Dr. Mehmet Kalpaklı (Ankara), Prof. Songül Karahasanoğlu (Istanbul, speaker of the advisory board), Prof. Dr. Andreas Münzmay (Paderborn), Prof. Dr. Christoph K. Neumann (Istanbul) and Prof. Dr. Sonia T. Seeman (Austin). Prof. Dr. Evi Nika-Sampson (Thessaloniki) and Prof. Dr. Fikret Turan (Istanbul) supported the advisory board as external guests. Former advisory board members are Prof. Ş.

⁷ REINHARD 1972, p. 267. The original quote reads: "*alle Quellenangaben fehlen, die Dichter oft nicht genannt sind und nur sehr selten kritische oder erläuternde Anmerkungen vorhanden sind*".

⁸ Current information on the CMO project is provided by the trilingual online portal (<https://www.uni-muenster.de/CMO-Edition/en/index.html>). The source catalog and the CMO editions can be used via a separate online portal (<https://corpus-musicae-ottomanicae.de/content/index.xml>).

Şehvar Beşiroğlu (Istanbul) (†) Prof. Dr. Raoul Motika (Istanbul), Dr. Richard Wittmann (Istanbul) and Dr. habil. Martin Greve (Istanbul). We would like to take this opportunity to express our sincere thanks to all members and guests of the Academic Advisory Board for their considerable and fruitful support, without which the project could not have been carried out in its present form.

The comprehensive edition and source cataloguing project could not have been carried out without the support of numerous libraries and collections, which have granted CMO access to their holdings and made our work possible through advice and assistance, not least by providing digital copies and granting publication permits. We would like to thank them all very much.

2.1 Fundamentals of the Critical Edition

The CMO editions make available to both researchers and historical performance practitioners, the corpus of historical transcriptions of Ottoman art music that still exists today and is accessible to researchers, as it was recorded and collected in the course of the nineteenth century, primarily in the cosmopolitan metropolis of Istanbul. The editions stay as close as possible to the original sources in terms of musical and textual content, uncensored and without omissions in the richness of their performative variants. Also the texts underlying the vocal works are published for the first time according to their performance variants.

As emic transcriptions, the present manuscripts represent the performative repertoire of the nineteenth century in its synchronic richness as well as in its historical development. Even though current research is able to establish references between individual manuscripts that point to a collecting and copying practice that developed in the nineteenth century, the manuscripts do not represent the repertoire in a standardized way, but rather as a collection of variants. For this reason, the aim of the CMO editions is **not to reconstruct historical-critical editions of musical “works”**, but to consider each individual notation as an independent variant within an opus cluster **in the form of a critical edition** that takes into account all necessary, but not all possible concordances. The intention is to represent the diversity of the historical performative repertoire.

2.2 Edition Design

An edition of Ottoman music manuscripts from the nineteenth century must take into account a multitude of factors that vary depending on the handwritten originals or the notation method that was used.

It is the basic principle of CMO editions that they allow direct conclusions to be drawn about the handwritten music source, and in the best case even allow its reconstruction. In doing so, the edition should approach as closely as possible the notation practices commonly used today. At the same time, the particularities and characteristics used in the original score will be represented by the systematic use of appropriate diacritical signs, and the edition will be accompanied by an explanatory critical report.

A particular challenge in the edition is that no contemporary calculations of pitches or interval ratios based on physical system formations are available for the tonal systems used in the nineteenth century. The only exceptions are a few printed Greek music theories, but these remain largely unexplored in terms of their significance for an analytical understanding of the Ottoman tonal system.⁹ Present projections of pitch designations on to, for example, the neck of the long-necked lute *Tanbûr*, illustrate concepts in the history of ideas, but not unequivocally determinable and calculable pitches.

When editing manuscripts in *Hampartsum* notation as well as in Western staff notation, the individually notation-specific meanings of the pitch signs have to be reconstructed in their musical context. For each individual piece of notation, the "pitch set" that is used is extracted, based on the evidence provided by the manuscript. In addition, the critical report explains why, how, and on what basis the additions or reconstructions were made.

In cases where changes, additions, or partial compositional variants have been entered into a historical notation by a second, likely historical hand, the editor will take into account all information from the original. The edited musical text reproduces the notation of the first hand; the later additions are documented in the critical apparatus, as well as the decisions of the editor relevant to the transcription. In this way, the user is able to see the different variants, to understand the editor's interpretations and, if necessary, criticize his/her decisions.

⁹ See *DOMESTIKOS* 1843 for the most important Greek source on this issue.

2.2.1 The general design of the sheet music edition

Each edited music notation includes the following information:

The diagram illustrates the components of a sheet music edition. It features a musical score with two staves. The top staff is in treble clef with a key signature of two sharps (F# and C#). The bottom staff is in bass clef. Annotations include:

- 1. Key signature and accidentals:** A circled treble clef and key signature.
- 2. Heading:** The title "Hicâz semâ'î Kûṭbu'n-Nây'îñ" is written above the first staff.
- 3. Catalogue information:** "3c. Makâm, Usûl, Genre (standardized)" points to the title. "3. Catalogue information" points to the title and composer. "3b. Source (RISM Siglum) and CMO Reference" points to "TR-Iüne 215-13, pp. 19-20 CMO1-1/12.8".
- 3a. Composer (standardized):** "Nâyî Osmân Dede (1652-1729)" is written below the title.
- 4. Line break in the source:** Two slashes above the second staff, with a circled "1" above the first slash and a circled "3" above the second slash.
- 5. Division number:** A circled "3" above the second staff.

1. Key signature and accidentals are supplemented to correspond to today's standards and avoid the extensive use of accidentals in the score.
2. The original heading is added in scholarly transcription.
3. The catalogue information is added in standardized spelling, as it is also given in the source catalog:
 - a. Composer name
 - b. Source reference (RISM-Siglum) and the CMO reference number
 - c. Makâm, usûl and genre
4. Line breaks in the original manuscript are presented in the music edition by two slashes above the system, which contain the corresponding line number of the original.
5. Division numbers indicated above the division signs serve for easier navigation through the score. The editor's comments given in the critical commentary also use division numbers and can be used similarly to locate a division within an edited piece.

2.2.2 Special features concerning the edition of manuscripts in Hampartsum notation

Hampartsum notation intentionally does not reproduce all elements of the recorded music with equal precision. Moreover, in comparison to Western staff notation, it gives a different weighting to the parameters. It includes meta-information that is primarily related to the underlying rhythmic cycle usûl and which would be lost without the use of an apparatus of diacritical signs and a specific notation that continuously reproduces a contemporary variant of the underlying usûl in addition to the melodic line on a second staff. CMO uses a set of

diacritical signs that supports the marking of technical aspects of the notation system.¹⁰ The semantically relevant groupings of the Hampartsum signs are marked, as well as the division signs and the structural signs, which in many cases are related to the underlying usûl. The rhythmic usûl cycle, latently present in the notation and usually mentioned in the title of the piece, is also supplemented as a substantial element, sourced from contemporary sources where possible. As a result, the critical editions of the CMO represent various levels of information, which the original manuscript source provides. Whereas performers can use the scores without taking the diacritical apparatus into consideration, it contains various pieces of metadata that may be of special interest for scholars.

1. The counting unit is a digit indicating the sum of the beats (darb) of the usûl (5). The darb indicates the indivisible total number of beats in one usûl cycle, as given in contemporary usûl notations from the nineteenth century. The music edition follows the examples of contemporary usûl sources, that only indicated the darb but not the exact relation to a rhythmic value as is the case in Western music (i.e. 4/4)
2. The entire edited score is accompanied by the underlying usûl (4), which is, whenever possible, based on a contemporary source. Thus, the CMO basically follows the model of the *Dârü'l-elḥân külliyâti*, but provides the usûl for the whole piece and not only for the first cycle(s). This makes it possible for the user to study the melody line in relation to the usûl.
3. The usûl is the primary time-organizing-element in Hampartsum notation. This fact is accounted for in the manuscript sources by marking the end of an usûl cycle with a

¹⁰ Cf. JÄGER 1996B.

division sign consisting of two dots in shorter usûls (2) and very frequently four dots in larger ones. In the music edition, the end of the usûl cycle is additionally marked by a bar line (2). Division signs may also imply more functions according to the musical contexts in which they appear. For example, regardless of a possible subdivision of the usûl, it can specify an internal structuring that usually includes four groups of notation signs. In this case, the division sign is represented in the music edition by a dotted line within as well as the two-dot sign above the system. The end of a usûl cycle is marked in this case by a four-dot structural sign (3).

4. The time unit stands in relation to the darb of the usûl cycle, and is based on the editor's suggestion (6).
5. Within the internal structuring indicated by a two-dot sign, single or multiple characters are grouped in clear demarcation from each other (1). These internal groups are indicated in the music edition by markers above the system (1). Precise marking of the internal groups is of great importance, especially in very early notations in Hampartsum notation, since there they contribute to the reconstruction of the rhythmic structure of the melodic line, which in many cases is not always clear.

2.2.3 The critical report

The critical report details editorial decisions. In addition, it provides information that points out formal or content-related peculiarities.

The critical report includes the metadata that also appear in the source catalog: "Source," "Location," "Makâm," "Usûl," "Genre," "Attribution," and "Work No." The work number is an especially useful tool, since it indicates the opus cluster to which the edited piece belongs and links it in the CMO catalog to all known variants of the work. The "Remarks" section allows the editor to provide notes, for example, on the source of the usûl variant that was used. In the structure overview the number of hâne (H) as well as their internal structure is indicated. The number of usûl cycles running in the respective hâne (H) and in the following teslîm (T) is given, and the repetitions of the sections and subsections are indicated. The "Pitch Set" indicates the Hampartsum signs that were used in the piece, and the editor's interpretation of them. "Notes on Transcription" document readings and editorial decisions. Finally, the relevant concordances that were used for the editing process, are provided. The initials represent the name of the music editor, given at the end of each edited score and critical commentary.

2.3 CMO Edition Plan

The "Corpus Musicae Ottomanicae" is designed to be executed over a period of 12 years. The first seven years are dedicated to the critical edition of manuscripts in Hampartsum notation, the last five years to the edition of Ottoman music manuscripts in Western staff notation. The overall edition plan includes the manuscripts indexed to date, arranged according to the libraries that own them.¹¹ Using the funding from the Deutsche Forschungsgemeinschaft (DFG), which is expected to last until 2027, CMO will publish selected, relevant vocal and instrumental music manuscripts in both notations, and will benefit from a steadily growing number of primary sources. At the same time, digital infrastructures will be further developed, which also applies to the source catalog. CMO works in cooperation with RISM - Répertoire International des Sources Musicales – and the edition design is under continuous development.

In cooperation and in constant exchange with international scholars and performing artists, CMO is developing the methodological foundations and the technical infrastructure for the edition of the nineteenth-century "Corpus Musicae Ottomanicae". The complete publication of the extensive material, which in principle also includes the diverse Greek sources, will be left to the musicological community. Music researchers and institutes are cordially invited to support CMO in its extensive work by taking on individual edition projects.

Prof. Dr. Ralf M. Jäger
Münster, October 2022

¹¹ An overview of the two edition parts with the planned series is available online at <https://corpus-musicae-ottomanicae.de/content/edition/browse.xml>. The editions published to date can also be accessed via the Editions overview ("Browse editions").

ADVISOR'S FOREWORD

"[The notation] writes, reads, plays the voices of every nation,
just like someone who can read a book he has not seen."

Hampartsum Limonciyan (Hasköy 1837)

Ottoman society entered a period of rapid modernization, beginning in the early eighteenth century. In addition to cultural change, one of the most important indicators of modernization has been the writing of music. Throughout the second half of the eighteenth century and the nineteenth century, Ottoman society manifested conflicting regarding the writing of music. With the exposure of composers, instrumentalists and lyricists to formal education in music, the need to write music spread gradually. Music lovers were still praised for their skills of memory, which were not just a matter of tradition or a pragmatic preference, but represented links in a chain from master to apprentice and expressed a culture that surrounded imagination, creation, education, performance practice and sharing. But while oral transmission preserved its long-established legitimacy, especially among performers and singers, the Hampartsum notation was increasingly adopted by the society and the numbers of those familiar with it who knew it increased rapidly. Those who know it rapidly increase. Hampartsum Limonciyan (1768–1839) described, in the draft document¹² he wrote in Hasköy, Istanbul in 1837 titled "Baba Hampartsum'un Vasıyetnamesi" (En. Father Hampartsum's Testament), the new notation system for the science of music. He was careful to mention that Agop Çelebi (1793–1847) was familiar with European (orig. Frenk) music, that he himself knew Greek (orig. Rum) music, and that Agop Çelebi's uncle Andon Çelebi (1765–1814) had a good knowledge of Ottoman music. Regarding the development of the notation system:

"I, 'Viraço [Tr. muganni, En. Chanter] *Hampartsum*' myself developed my method for the science of writing *yerajištağan* [Tr. musiki, En. Music] at the mansion of Düzyan family.

¹² This document is located in the personal archive of Rauf Yekta and it is published together with the facsimile in the book titled *Rauf Yekta Bey'in Musiki Antikaları* (DOĞRUSÖZ 2018, p. 182). The document is probably translated from Armenian to Turkish by Rauf Yekta. In another primary source written in Istanbul by the Mxit'arist cleric Minas Pjişkyan (Arm. Bžškean) dated 1815, the process and technical features of the Hampartsum music notation are described (OLLEY 2017A, pp. 74–80). While Hampartsum Limonciyan's autobiography is also mentioned in this source, according to the information provided by Hisarlıyan and Ankeğya, the location of autobiography is not known (KEROVPYAN & YILMAZ 2010, pp. 89–94).

However, it was rough [at that time]. We, three of us together, examined [the notation system]: Agop Çelebi, with a keen knowledge of the Frankish note, my own knowledge of *ipsalitik* (ie Greek music), and his uncle Andon Çelebi, with a good knowledge of Ottoman music."¹³

He underlined that the function of the notation system would serve musicians just as books served people who could read; he feared that relying on oral transmission to learn music (Tr. *meşk*) could lead to the music's oblivion, whereas the music could become permanent once written:

"[The notation] writes, reads, plays the voices of every nation, just like someone who can read a book he has not seen.... If they learn this science, they will not become dependent on *meşk*...it is not possible to forget at all."¹⁴

The information Kerovpyan and Yılmaz (2010: 90) mention, which is conveyed from Pijışkyan, reflects a similar intention:

"While talking about the difficulties encountered in the teaching of Armenian Church Music at the beginning of the nineteenth century, Pijışkyan states that the problem of 'being without notation' is also valid for Ottoman music; this problem came to the agenda as an issue that needs to be solved in the meetings at Düzyan's mansion."

Music notation gained particular momentum with the encouragement of two reformist sultans in the Ottoman court: Selim III and Mahmud II. While some studies associate Hampartsum notation with the reign of Selim III (r. 1761–1808), new studies have confirmed its context in the reign of Mahmut II (r. 1808–1839). We learn from Pijışkyan, who contributed to the process of the creation of Hampartsum music writing together with Agop Çelebi, Andon Çelebi and Hampartsum Limonciyan, that the formation process of the Hampartsum notation system started in 1808 and was completed in 1812. If we accept these date ranges, it is clear that Selim III could not have given any order to create the notation system and Limonciyan could not have presented the notation to Selim III due to his death in 1808.¹⁵

¹³ Original Turkish text: "Bu yerajıştağan (yani musiki), ilminin yazmasının bulunması Düzoğulların yalısında yazaların yolunu buldum kendim 'Vıraço [muganni] Hamparsum'. Fakat kaba idi. Agop Çelebi, Frenk notasını, keskin bilmekle, kendim ipsalitikayı (yani Rum musikisini) bilmem ile ve amcası Andon Çelebi Osmanlı musikisi keskin bilmekle, üçümüz birlikte incelettik..." (DOĞRUSÖZ 2018, p. 182).

¹⁴ Original Turkish text: "Her milletin sesini yazar, okur, çalar, aynı okumak bilen görmediği kitabı okur gibi....bu ilmi öğrenseler muhtaç olmazlar meşke...zerre unutmak olmaz." (DOĞRUSÖZ 2018, p. 182).

¹⁵ KEROPYAN & YILMAZ 2010, p. 46; BAŞER 2018, p. 51; BAŞER 2014, p. 804.

The musician who was ordered by Selim III to develop a notation system was Abdülbâkî Nâsır Dede (1765–1821), the sheikh of the Yenikapı Mevlevîhânesi. In 1794, he wrote his work entitled *Tahrîriye*, in which he would write both makâm pieces with lyrics and instrumental makâm music. In his treatise, apart from describing the rules of music writing, he also recorded the Mevlevî ritual in makam Sûz-ı dilârâ composed by Selim III and the peşrev of Musâhib Seyyid Ahmed Ağa with the ebced musical notation system he developed himself. However, based on historical evidence it appears that neither Nasır Dede nor any other musician on the Ottoman stage used the notation system of Nasır Dede.¹⁶

The establishment of the first Eurocentric court music band (Muzika-yı Hümayûn), upon the abolition of the Janissary band during the reign of Mahmut II, accelerated the need for music writing. It can also be said that Hampartsum music notation served to facilitate the transition to European score notation. While the Hampartsum notation system was already known among musicians in Ottoman society, Giuseppe Donizetti (1788–1856) as the conductor of Muzika-yı Hümayûn, had to learn Hampartsum notation as well in order to teach European compositions and performance of genres such as marches, polkas, foxtrots, waltzes, etc. Indeed it is possible to analyze such a change as a dialectical process that includes both the growing needs of accelerating urban life and reformist political interventions.¹⁷

Hampartsum notation, which clearly played a dominant role in the performance and transmission of the musical tradition of the period, could easily record the repertoire of religious works that were difficult to write such as church music genres *dağ*, *meğeti* ve *şaragan*. On the other hand, the notation system became a key medium to transmit the Ottoman corpus to the present day, including makam compositions with lyrics (*beste*, *ağır semai*, *yürük semai* etc.), instrumental repertoire (*peşrev* and *saz semai*, etc.), the newly emerged *şarkı* genre and Mevlevî rituals which are the long-running genre of Sufi music. One of the most important features of Hampartsum notation is related to its very practical and pragmatic function since there is no need for specialist paper with European music staff when taking notes.

Could Hampartsum Limonciyan have imagined how many genres of repertoire that transcended so many borders, would be recorded with “international” Hampartsum notation system today? The leading figures of the period who accepted social change as a necessity were well aware of Hampartsum notation. Neyzen Emin Dede (1883–1945) recorded 81 pieces with Hampartsum notation in the *fihrîst taksim* genre, which were difficult to write with notation.¹⁸ On the initiative of Yusuf Ziya Demircioğlu (1887–1973), the assistant director of the first music conservatory of the Ottoman era, *Dârüilelhân*, Rauf Yekta Bey (1871–1935) as

¹⁶ USLU & DOĞRUSÖZ DİŞİAÇIK 2008, p. 15.

¹⁷ ERGUR & DOĞRUSÖZ 2015.

¹⁸ ERGUNER 2016, p. 132.

the member of the committee that was responsible for identifying and cataloging the notation and oral sources of Turkish music (*Konservatuar Tasnif ve Tespit Heyeti*), used Hampartsum notation to record the folk songs and makams of some folk songs during their compilation trips around Turkey in the four summers beginning from 1926. For example, a *türkü* compiled from a performance by Osman Efe, who played kaval in the Aspozi village of Bor, was written with Hampartsum notation.¹⁹ While evaluating his 78-rpm records, Tanburi Cemil Bey, one of the leading composers and performers of the period, wrote the fourth hane of his Neva Peşrev with Hampartsum notation in his lined notebook.²⁰ While more examples could easily be given, this is not the role of this foreword.

With the widespread use of Hampartsum and Western staff notation, many prominent societal figures ensured that the works of makam music were recorded by sponsoring talented contemporaries in the second half of the nineteenth century. Thus, the first large-scale notation collections begin to form. Among these music patrons, there were state officials such as Ethem Paşa, Necip Paşa, Halim Paşa and members of Sufi circles such as Baba Raşit Efendi and Aziz Dede, as well as figures such as Rauf Yekta Bey, Abdülkadir Töre and Hüseyin Sadettin Arel.²¹ Thanks to their curiosity and drive, a significant part of the period's music has been recorded. For many years, it was not possible to research the collections in state institutions, as the works were not classified. The personal collections of notations such as those of Halim Paşa and Dr. Hamit Hüsnü Bey at TRT Istanbul Radio; and Leon Hancıyan, Astik Ağa and İsmail Hakkı Bey at TRT Ankara Radio were introduced to the masses after being closed for many years, through the projects entitled "TRT Külliyyat" and "Geçmişin Ruh İzleri", by a committee of which I was also once a member. These collections were transferred to the Cumhurbaşkanlığı Arşivi and they are open to the public. The collection of Hüseyin Sadettin Arel, donated to the Istanbul University Türkiyat Araştırmaları Enstitüsü in 1955, was catalogued and became accessible recently. The musical notation section of the Şerif Muhiddin Targan collection donated to the Süleymaniye Library in 1974 was catalogued and opened to the public in 2014. In contrast to these collections that were inaccessible for a long time, the notation collection of Ekrem Karadeniz in the Süleymaniye Library and the Laika Karabey notation collection in the İBB Atatürk Kitaplığı were opened to researchers shortly after they were donated.

Today, the opening up of both institutional archives and private archives has paved the way for the emergence of national and international projects. The first major project began in 2009 under the Department of Ethnomusicology at Würzburg University. The goal of the

¹⁹ DOĞRUSÖZ 2018, p. 197.

²⁰ ÜNLÜ 2016, pp. 448, 487.

²¹ ÜNGÖR 1966A, ÜNGÖR 1966B.

project was to find original manuscripts written in different notations and to bring them together in a large catalogue. With the international *Corpus Musicae Ottomanicae* (CMO) project carried out by the Musicology Institute of Münster Westfälische Wilhelms University in Germany, digital copies of Hampartsum music manuscripts in Turkish and European libraries were obtained. The goal of the project is to develop reliable music and text editions of these manuscripts to be achieved through jointly determined transcription and translation parameters. Professor Ralph M. Jäger has successfully managed a long-term project by overcoming the legal and bureaucratic hurdles. The Max Weber Foundation's IT department has supported the development of the project's infrastructure and technical issues. In 2009, an international network began to form in parallel. The aim here was to draw scholars working on Ottoman music manuscripts to the project, so that it could encompass as wide a range of topics as possible. This strategic cooperation is of great importance to the realization of the project. With this in mind, the CMO Advisory Board formed to define scientific parameters for the transcription process that would preserve the originality of the pieces. In these music editions, even the most basic points in the manuscripts were carefully and extensively discussed and special signs were determined for transcriptions. The Orient-Institut Istanbul, which has a recognized expertise in Turkish and international scientific studies, is among the stakeholders of the project and also supports it at the institutional level.

Most of the written repertoires of Ottoman music formed at the end of the nineteenth and the beginning of the twentieth century are still in the personal archives. Due to the scarcity of written sources, it was very important to initiate the cataloging, identification and examination of private archives in addition to the resources available in the libraries of institutions and organizations. With this very intention, the personal archive of ud player and composer Ali Rifat Çağatay (1867–1935), one of the most important figures representing the transition period in Turkish Music in the early twentieth century, helped me to create a study group and project that worked on his collection. Also towards this end, the Ottoman / Turkish Music Research Group (OTMAG), which aims to contribute to the field of musicology by examining private music collections that have not come to light until now and contain the primary sources of Turkish music, was officially established in May 2014 under the coordination of the Istanbul Technical University Turkish Music State Conservatory. OTMAG, which has been working on the collections of Rauf Yekta, Ali Rifat Çağatay and Dürrü Turan, has successfully presented these works to the academic scene via various media, including books, panels, exhibitions, concerts and radio programs.

Ali Rifat Çağatay's notation-based materials are divided five different groups: manuscripts written with Hampartsum notation (HDEF), manuscripts written with European staff notation (BDEF), miscellaneous notebooks (MTDEF), printed notations (MATPER), and loose sheet notation manuscripts (YZPER). Apart from the compositions which belong to the traditional

fasıl repertoire, the manuscripts consist of Çağatay's compositions, sketches of his compositions, etude-like works and harmony notes.

I had the chance to see the entire archive of Ali Rifat Çağatay held by Alp Altıner, the grandson of Çağatay, and the Hampartsum manuscripts in the archive of Rauf Yekta Bey with the consent of his grandson Cem Yektay who unfortunately passed away in 2018. These two special archives have enabled us to produce a number of new studies. Two MA theses were prepared from this archive. One of them is on the manuscript YZPER2. Twelve undergraduate projects have been completed on the other Hampartsum manuscripts from the Çağatay archive as well, and for those whose transcriptions have been completed, we intend to publish the manuscripts in the near future.

As a member of the ITU Turkish Music State Conservatory, the founder of the Ottoman-Turkish Music group and a member of the CMO Advisory Board, I am grateful for the opportunity to support this project. Life brings people together with the projects they love and that bring them excitement. With the aim of bringing the manuscripts to the light of day and preparing them for a wide audience, CMO and ITU OTMAG came together with the same goal. I thank Prof. Dr. Ralf M. Jäger, who included me in the project board and honored me with the writing of the foreword to this edition; to my dear colleague Jacob Olley, who was the person who introduced me to the project; to the cellist and grandson of Ali Rifat Çağatay, Alp Altıner who shared his collection with us and enabled us to work scientifically and produce academic studies on the archive. Lastly, I would like to thank my dear student Salih Demirtaş, who I supervised in his MA study, and who meticulously prepared the transcriptions and critical editions of twenty-one instrumental pieces included in the YZPER2 manuscript, which is one of the crucial works in the Ali Rifat Çağatay archive. YZPER2 is the first CMO Music Edition of to a private collection that is prepared comparatively with other Hampartsum manuscripts included in the CMO Source Catalogue. I hope that more editions will be included in the future, which will enable us to observe and chart cultural change throughout the Ottoman musical corpus.

Prof. Dr. Nilgün Doğrusöz Dışiaçık

Istanbul, October 2020

PREFACE & ACKNOWLEDGEMENTS

This study is the first fruit of my interest in the historical notation sources of Turkish Music, which was born during my graduate study of ethnomusicology at the Centre for Advanced Studies in Music (MIAM), Istanbul Technical University (ITU). I would like to express my deepest gratitude to my supervisor Prof. Ruhi Ayangil, who guided me in this edition with invaluable contribution, and is always by my side in every aspect of my academic studies. I would also like to thank my thesis advisor Prof. Dr. Nilgün Doğrusöz who instructed me, and encouraged me continually with extraordinary dedication.

During the second year of my graduate studies, I had the opportunity to take courses on music paleography taught by Prof. Doğrusöz, covering different notation systems used in Turkish Music, including Hampartsum notation. At that time, I encountered the private archive of Ali Rifat Çağatay and became a volunteer member of the Ottoman-Turkish Music Research Group (OTMAG) at ITU, which was cataloguing the archive. As I became more deeply involved with the archive, the manuscript of this study, YZPER2, attracted my attention because of the original calligraphical style of writing in its headings.

Once I decided to study the YZPER2 manuscript, Prof. Ayangil and Prof. Doğrusöz introduced me to the Corpus Musicae Ottomanicae (CMO) project. In the Fall term of 2017, I visited the CMO team in Münster and collaborated with them frequently for my thesis. After finalizing and defending my thesis in June 2019, I begin to work for the CMO project as a research associate at the Orient-Institut Istanbul. I would like to thank the chairman of the CMO project Prof. Ralf. M. Jäger for allowing me to become a member of this important project and giving me the opportunity to publish a revised edition of my MA thesis²² as one of the CMO Music Editions. Special thanks to the current and former members of the CMO team; Jacob Olley for his continuous support, including helping me on Armenian transliterations in the manuscript and his sincere friendship; Marco Dimitriou, Salah Eddin Maraqa, Malek Sherif, Ersin Mihçı, Zeynep Helvacı, Nevin Şahin, Neslihan Demirkol and Anna Plaksin for their important contributions; and especially Semih Pelen and Sarah Mandel for their crucial work during the proofreading process of this edition. I am indebted to Alp Altınır as well, who is the holder of the Ali Rifat Çağatay Archive, for generously allowing me to study the manuscript.

I would also like to express my sincere gratitude to musicologist Paul Whitehead from MIAM, who guided and motivated me to broaden the scope of my study during the independent study sessions we had together, and also for pointing out inspiring approaches included in the literature. I would also like to thank Robert Reigle, from whom I learned

²² DEMİRTAŞ 2019.

ethnomusicology as a discipline beyond Eurogenetic²³ influences. I owe a particular debt to Catherine Christer Hennix as well, whose wisdom has always inspired me.

Special thanks to everyone who has supported my study in some way, including Nişan Çalgıcıyan from whom I learned to use Hampartsum notation in practice; Murat İçlinalça for his support; Maral Civanyan and Ani Sazak for preliminary transliterations of the Armenian scripts; David Fossum for his invaluable proofreading of the thesis; Celal Volkan Kaya, Dilhan Yavuz, Demet Kır and Duygu Taşdelen from OTMAG; Harun Korkmaz from İstanbul Üniversitesi Türkiyat Araştırmaları Enstitüsü; and also Osman Öksüzoğlu, Baki Enis Balakbabalar, Prof. Dr. Gözde Çolakoğlu Sarı, Doç. Dr. Ozan Baysal, Burçin Bahadır Güner and Joseph Alpar. Lastly, I would like to thank my family for their invaluable support. I hope this edition at least contributes to academic attempts towards a critical edition of Turkish Music sources based on scientific and multidisciplinary parameters.

Salih Demirtaş

²³ Reigle began using the term *Eurogenetic* in his ethnomusicology courses at ITU MIAM in 2004. Reigle prefers to use the term to refer to music with one or all components originating in Europe, as a more precise and more neutral alternative to terms such as Western, Eurocentric, non-Eastern or pan-European (REIGLE 2014, p. 234).

INTRODUCTION

1. Ali Rifat Çağatay

The manuscript that comprises the subject of this edition, YZPER2, belongs to the private archive of Ali Rifat Çağatay (1867–1935), a significant musical figure from the first quarter of twentieth-century Turkey who is mostly known as a composer, oud player, conductor and musicologist (see Figure 1). The period in which he lived was a crucial transitional era for Turkey not only politically, but socio-culturally as well. Apart from social conditions arising from the collapse of the 600-year-old Ottoman Empire until the establishment of the Turkish Republic in 1923, reformist policies during the era of Abdulhamid II (r. 1876–1909) defined the characteristic attitudes of the intellectuals who lived in this era. While many of these intellectuals exhibited the ability to balance identities of both Islamic and European culture, and traditionalism and progressivism, a significant characteristic of Ali Rifat Çağatay was his approach to music that was capable of reconciling antinomies between tradition and reformism.²⁴ His reformist approaches in Turkish Music included polyphonic compositions²⁵, standardization of alteration signs, key signatures for makâms, and new formal genres like *medhâl*.²⁶

Figure 1. Ali Rifat Çağatay (DOĞRUSÖZ & ERGUR 2017B, p. 23).

²⁴ DOĞRUSÖZ & ERGUR 2017B, pp. 36–37.

²⁵ Ali Rifat Çağatay's private archive includes such pieces as *Ûd Trio*, *Nişâburek Şarkı* and *Nişâburek Medhâl* in which he experiments with the polyphonization of his compositions. For further information on Çağatay's harmonic language, see BAYSAL 2017.

²⁶ *Medhâl*, first introduced by Ali Rifat Çağatay, is an introductory instrumental composition at the beginning of fasıl music.

He became the president of both the *Garp* (Western) and *Şark* (Eastern) music departments²⁷ of *Dârülbedâyi* (the Conservatory of the Istanbul Municipality) founded in 1914. He was the first president of the *Şark Mûsikî Cemiyeti* (Eastern Music Association) established in 1920. Çağatay was also assigned as the member of the committee that was responsible for identifying and cataloging the notational and oral sources of Turkish Music known as *Konservatuar Tasnif ve Tespit Heyeti* in *Dârülelhân*, which he participated in from 1927 until he passed away in 1935. He worked in this committee together with other well-known Turkish musicologists such as Rauf Yektâ, Zekâizâde Ahmed Irsoy and Subhi Ezgi. Apart from his musicological studies on Turkish music, Ali Rifat Çağatay is the first composer of the national anthem of the Turkish Republic, *İstiklâl Marşı* (March of Independence).²⁸

Figure 2. Cover of Hampartsum notebook TR-İççağatay HDEF10 (DOĞRUSÖZ & ERGUR 2017B, p. 65).

While Çağatay was capable of playing several instruments including kemenche, cello and tanbur, he was mostly known as “*Oudi Ali Rifat*” in his era (see Figure 2). In his private archive, several manuscript notations are signed by him as “*Ûdî Âcîz*”.²⁹ Çağatay’s main students include Suphi Ziya Özbekkan (d. 1966), Mesud Cemil (d. 1963), Oudi Sami Bey (d. 1939), Selahattin Pınar (d. 1960) and Şerif Muhiddin Targan (d. 1967).³⁰

Çağatay published several articles related to Turkish music. The most important ones number among them the article series entitled *Fenn-i Musiki Nazariyatı* (The Theory of Music

²⁷ These *Dârülbedâyi* music departments later became *Dârülelhân* in 1917, which was the first national conservatory of Turkey.

²⁸ The voting for the compositions of a national anthem for the Turkish Republic was carried out two years after the legislation for a national anthem was approved on March 12, 1921. The composition by Ali Rifat Çağatay in makâm Acem Aşîrân was selected on July 12, 1923. While his composition lost its official status after around one year, it was performed until the approval of Osman Zeki Üngör’s composition as the official anthem of the Republic of Turkey in 1930 (TOKER 2017, pp. 133–55).

²⁹ *Âcîz* in Turkish means humble in this context.

³⁰ DOĞRUSÖZ & ERGUR 2017B, p. 70.

Science) published in the *Mâlumat* journal from May 1895 through January 1896³¹, and music-related sections of the book *Türk Tarihinin Ana Hatları* (Outlines of Turkish History) published by *Türk Ocağı*.³²

Regarding his personal life, Ali Rifat Çağatay was the eldest of three sons to his father Hasan Rifat Bey.³³ Çağatay's first wife was Sâre Hanım (1877–1973) and his second wife was Princess Zehra Hanım (1863–1922) from Egypt. Zehra Hanım was the daughter of Prince Vizier Mehmed Abdülhalim Paşa³⁴ (1830–94) and the sister of Grand Vizier Prince Said Halim Paşa (1864–1921). After Zehra Hanım died due to illness in Nice, France, Çağatay married his last wife Nimet Hanım in 1923. Following the implementation of the surname law in Turkey in 1934, Ali Rifat Bey chose Çağatay as his surname, in honour of his sister Samih Rifat Bey's studies on the Chagatai language.³⁵

2. Personal Archive of Çağatay

Ali Rifat Çağatay was not only a member of a wealthy family; his educational background covered Western music, and his advanced training in the French and Persian languages enabled him to study primary sources related to Turkish Music, harmony and history. The family mansion located in Çamlıca was famous for its musical gatherings (Tr. *mûsikî meclisleri*) in which major figures of the era participated, including Rauf Yekta, Tanbûrî Cemil Bey and Şerid Muhiddin Targan. Another regular musical gathering of this period was organized on the Bosphorus in the summer months and was called *Mehtâbiye*.³⁶ These gatherings hosted the leading musicians of Turkish music, including Kemençeci Vasil, Hânende Nedim Bey, Kemânî Aleksan Ağa, Santûrî Ethem Efendi, Kanûnî Şemsi Efendi, Tanbûrî Cemil Bey, Lavtacı Andon, Kemânî Tatyos and Ali Rifat Bey.³⁷ The organizer of these gatherings was Said Halim Paşa, who was well-known for his notation collection handed down to him by his father Mehmed Abdül Halim Paşa. A letter written by Rauf Yekta addressed to

³¹ ALÎ RİF'AT 1895–96.

³² While the first edition of *Türk Tarihinin Ana Hatları* was published in 1930, Çağatay was included in the committee for the extended second edition, which was published in fascicles in 1932–36. The music-related sections of the work were republished in *Mûsiki Mecmuâsı*, see ALÎ RİF'AT 1979–82.

³³ DOĞRUSÖZ & ERGUR 2017B, p. 25.

³⁴ Mehmed Halim Paşa was a wealthy collector and crucial supporter of Turkish Music. He financed scribes to notate the Turkish Music repertoire in the last quarter of the nineteenth century.

³⁵ The Chagatai language is among the extinct family of Turkic languages and was used in the Timurid era under the influence of Islamic civilization. Chagatai refers to the second son of Genghis Han, the founder of the Mongol Empire.

³⁶ *Mehtap* means full moon in Turkish.

³⁷ DOĞRUSÖZ & ERGUR 2017B, pp. 29–32.

the Mayor of Istanbul, regarding Çağatay's suitability for the open position in *Konservatuar Tasnif ve Tespit Heyeti* confirms the transmission of the Said Halim Paşa collection to Ali Rifat Çağatay.³⁸ This fact is unsurprising since Çağatay's second marriage was to the sister of Said Halim Paşa, Princess Zehra Hanım.

In 2012, a surviving member of the Çağatay family, Alp Altınır³⁹ decided to make the private archive of Ali Rifat Çağatay accessible for musicological studies. The project titled "Research and Investigation Studies on Manuscripts and Printed Works found in Ali Rifat Çağatay Estate" conducted by ITU, Ottoman-Turkish Music Research Group (OTMAG) under the direction of Prof. Dr. Nilgün Doğrusöz was completed in 2015. The scope of the project included the digitalization of the documents found in the Ali Rifat Çağatay archive, including manuscript books, notations, articles and other documents. An inventory study was published based on the classification of these materials.⁴⁰ The catalogue completed by OTMAG divides the archive to two main sections: documents with notation in which manuscripts both with Hampartsum and staff notation are included; and personal documents ranging from articles, documents and letters in Ottoman Turkish to French documents and periodicals. In this archive OTMAG identified 761 different compositions of Turkish Music in which 173 of them are duplicated with different notation systems.⁴¹ The classification of the musical scores in the archive is made based on name, makâm, usûl, genre of the composition and the composer of the piece.

Apart from fifteen notebooks with Western notation, OTMAG identified thirteen notebooks with Hampartsum notation in the archive, which consist of 485 musical scores. Among these notebooks, seven of them have Turkish titles written in the Armenian alphabet and are the work of the same scribe.⁴² The remaining six notebooks are titled only in Ottoman Turkish. OTMAG catalogued these notebooks with HDEF code with assigned numbers for every notebook as HDEF1, HDEF2 etc. Based on the identification of Ali Rifat Çağatay's hand-writing in HDEF10, five of the notebooks are identified as written by Çağatay.⁴³

³⁸ DOĞRUSÖZ & ERGUR 2017B, pp. 55–56.

³⁹ Musician Alp Altınır is the grandson of Ali Rifat Çağatay. As violoncello player, he is also the president of İstanbul Filarmoni Derneği (Istanbul Philharmonic Foundation).

3. Codicological Aspects

3.1 Physical Description

The YZPER2 manuscript, which is the main object of this study is the only Hampartsum score with loose sheets of paper in the personal archive of Ali Rifat Çağatay. There are twenty two sheets, the dimensions of which are 203x285mm. The pages are champagne in colour with blue graph lines that create rectangular shapes on the paper. The ink colour used by the scribe is indigo blue. Since pagination of the manuscript is done by OTMAG based on the ordering of the sheets found in the archive, they are shown with square brackets throughout this study. Out of twenty-two sheets, the left half of one sheet is torn and lost, and therefore could not be covered in the study.⁴⁴ Five scores continue on the verso of the sheets and the verso of two sheets include sketches in Hampartsum notation.⁴⁵ Remaining versos of the manuscript are blank.

3.2 Scribe

Throughout the manuscript, no signature or autograph is included to provide more information about the scribe. The titles of the scores in the YZPER2 manuscript are written with Armenian alphabet in Ottoman Turkish, except fol. [03r], which is written with Latin alphabet in French orthography. Every score has secondary handwriting in pencil next to the main heading in Armenian script which transcribe the title of the scores into Ottoman Turkish in Arabic script (see Figure 1). However, these secondary handwritings in the manuscript are misleading since they don't exactly transliterate the main headings in Armenian script.⁴⁶ The characteristic structure of the headings written by the scribe could be identified first of all by the regular usage of the abbreviation "P." for peşrev and "o." for usûl.⁴⁷ Throughout the manuscript, sections of the composition are marked with numerals; for example, "1." stands for the first hâne. Every score page of the manuscript includes an average of fourteen lines of notation and sixty symbols.

⁴⁴ The title of this sheet, the secondary handwriting in Ottoman Turkish in pencil, begins as "Şevkutarâb hafif Sul...". The piece is attributed to Selim III and the form is peşrev with four hânes.

⁴⁵ Sketches in fol. [04v] are in black ink and seem to belong to the same scribe who wrote the scores in the manuscript. Sketches in fol. [06v] are in pencil and written by the same person who made corrections on the Hampartsum score in fol. [06r].

⁴⁶ Fahte as usûl information is not included in the secondary handwriting of the first folio. Berefşân as usûl information is not included in the secondary handwriting of the fol. [08r-v].

⁴⁷ "A." abbreviation is used in the heading of Sabâ Saz Semâîsi in fol. [10r] and probably indicates the usûl of the semâî genre as aksak semâî or ağır semâî.

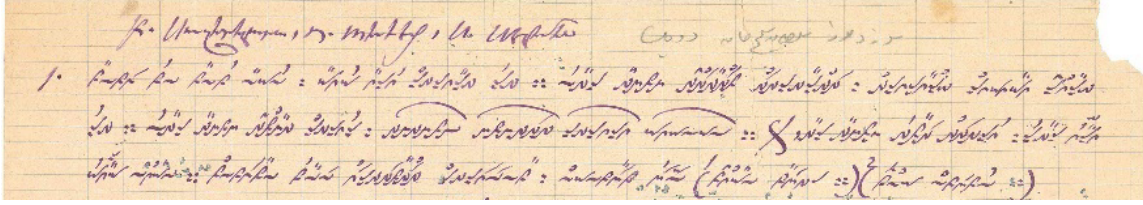

Figure 3. First hâne of Sûz-ı dilârâ Peşrevi, usûl düyek by Selim III in TR-İçâğatay YZPER2, fol. [05r].

The main headings and the Hampartsum scores are obviously written by the same scribe based on writing style and the usage of the same ink colour throughout the manuscript. Another functional aspect of the manuscript that requires examination is whether the scores are written based on oral sources or copied from another written source. The only evidence regarding this issue is the mistake of the scribe in fol. [08r]⁴⁸. Since three groupings crossed out by the scribe on the score are identical with the ones in the subsequent division, it is safe to assume that the scribe did use another written source and copied some or all the pieces from this source.

3.3 Content

Regarding the content of the YZPER2 manuscript, all scores belong to the instrumental genre of Turkish Music. Table 1 represents the content of the manuscript based on the headings in the manuscript. Except for one score which is a saz semâîsî, all scores are examples of the peşrev genre. Regarding the structural properties of the compositions in the manuscript, eighteenth century music theorist Kantemiroğlu's definitions for these instrumental genres are crucial for distinctions based on the repertoire included in YZPER2 manuscript. Kantemiroğlu defines four different type of peşrev in his treatise⁴⁹: The first type is with three hânes and mülâzime, the second type is with three hânes without mülâzime, the third kind consist of four hânes and the fourth kind is with an additional fifth hâne called *zeyl*. Out of twenty peşrev scores in YZPER2, Kantemiroğlu's third category is the most encountered version in our manuscript - sixteen peşrevs have four hânes. If we look to the structure of these sixteen peşrevs with four hânes, two of them lack any marking for the teslîm section. Two compositions with five hânes in the manuscript are in usûl sakîl and darb-ı fetih.⁵⁰

⁴⁸ See Notes on Transcription section of the critical report for TR-İçâğatay fol. [08r-v].

⁴⁹ TURA 2001/1, pp. 184-85.

⁵⁰ Two peşrevs with five hânes are in makâm Acem bûselik and Bûselik, located in fol. [14r] and fol. [20r] respectively.

Table 1. Content list of TR-Içağatay YZPER2.

Folio no.	Heading in Armenian script
[01r]	P. şēt' ħarç'ığar, o. faht'ē, Babanın
[02r]	[P.] Muhayēr, o. Bērēfşan, Mandōlinin

[18r]	Pēşrēf Gēvēşd, o. Dēvrikēbir
[19r-v]	P. Nigriz, o. Düeēk, Ēflat'un
[20r]	P. Sazkear, o. Zēncir, Musinin
[21r-v]	P. Puselik, o. Zarbifēt', Z. Mēhmēd ağanın

Another specific quality of the manuscript is that all the makâms used throughout the sheets are different (see Table 2). In other words, the manuscript represents twenty-one different makâm examples. Apart from well-known main makâms like Hicâz, Kürdî, Sabâ, Uşşâk, Segâh, Bûselik and Muhayyer, the scribe prefers to include peşrevs with less common makâms in the compilation as well, e.g. Şedd-i karcığar, Evcârâ, Sûz-ı dilârâ, Sûznâk, Bûselik aşîrân, Nühüft, Nişâburek, Yegâh, Acem bûselik, Tâhir bûselik, Muhayyer kürdî, Nikrîz and Sâzkâr.

⁵¹ The third composition in the manuscript includes the only heading in Latin letters.

Table 2. The makâms of the pieces in TR-İçağatay YZPER2.

Makâm	Pieces
Şedd-i karcığar	1 (fol. [01r])
Muhayyer	1 (fol. [02r])
Hicâz	1 (fol. [03r])
Evcârâ	1 (fol. [04r])
Sûz-ı dilârâ	1 (fol. [05r])
Sûznâk	1 (fol. [06r])
Kürdî	1 (fol. [07r])
Bûselik aşîrân	1 (fol. [08r-v])
Nühüft	1 (fol. [09r-v])
Sabâ	1 (fol. [10r])
Nişâbürek	1 (fol. [11r])
Uşşâk	1 (fol. [12r])
Yegâh	1 (fol. [13r-v])
Acem bûselik	1 (fol. [14r])
Tâhir bûselik	1 (fol. [15r])
Muhayyer kürdî	1 (fol. [16r])
Segâh	1 (fol. [17r])
Geveşt	1 (fol. [18r])
Nikrîz	1 (fol. [19r-v])
Sâzkâr	1 (fol. [20r])
Bûselik	1 (fol. [21r-v])

Another qualitative feature worth mentioning is the type of usûls used in the compositions included in the manuscript (see Table 3). Düyek and berefşân are the most-used usûls with both of them encountered four times. For three pieces, despite the headings mentioning usûl düyek, the pieces are interpreted as çiftte düyek because of the usage of division signs in the notation system. Apart from sakîl, which is encountered two times in the manuscript, the remaining usûls, each appearing only once, are çenber, darb-ı fetih, devr-i kebîr, fahte, hâvî, muhammes and zencîr. Since the manuscript includes only one saz semâisi in fol. [10r], it consists of aksak semâi for the first three hânes and and yürük semâi for the fourth hâne together, as is usual for this genre. Based on this variety of usûls in the manuscript, except for the compositions in usûl düyek and semâi, all remaining pieces are with büyük usûl⁵² (large

⁵² Usûls with more than fifteen beats are defined as *büyük* usûl in Turkish Music (AKDOĞU 1996, p. 284). *Büyük* usûls consist of various smaller usûl units that also function as supportive tools to memorize long compositions for oral transmission of the repertoire. For further discussion on the large usûl structures in Turkish Music see AYANGİL 2017.

usûl). In the manuscript, the scribe indicates the beat number of the usûl only in the heading of Hicaz Karabatak Peşrevi as “48”.

Table 3. The usûls of the peşrevs in TR-Içağatay YZPER2.

Usûl	Pieces
düyek	4 (fols. [04r], [12r], [16r], [19r–v])
berefşân	4 (fols. [03r], [08r–v], [11r], [13r–v])
çifte düyek	3 (fols. [05r], [07r], [17r])
sakîl	2 (fols. [03r], [14r])
fahte	1 (fol. [01r])
çenber	1 (fol. [06r])
hâvî	1 (fol. [09r–v])
muhammes	1 (fol. [15r])
devr-i kebîr	1 (fol. [18r])
zencîr	1 (fol. [20r])
darb-ı fetih	1 (fol. [21r–v])

Based on the attributions included in the manuscript (see Table 4), nine pieces out of twenty-one belong to the eighteenth century repertoire of Turkish Music. Eighteenth-century composers included in the manuscript are Dilhayat Kalfa, Selîm III, Sâ’atci⁵³, Kantemiroğlu, Andon Ağa⁵⁴, Vardakosta Ahmed Ağa, Tanbûrî İsak, Sâdık Ağa and Tanbûrî Musî. There are also three pieces attributed to musicians from the early nineteenth century: Hampartsum Limonciyan, Kemânî Rızâ Efendi and Zekî Mehmed Ağa. Late nineteenth-century attributions in the headings of the manuscript consist of Mandolin Artin, Kemânî Tatyos Efendi, Serneyzen Azîz Dede and Kemânî Sebuğ Ağa. Mandolin Artin is the only composer who has two attributions in the manuscript. The manuscript includes one composition with an attribution

⁵³ The heading of Kürdî Peşrevi both in Armenian and Ottoman Turkish script mentions only Saatçi as the composer of the piece in the manuscript. Saatçi is used as a sobriquet for a composer, literally meaning clockmaker in Turkish. Out of eight concordances, three of them also mention Mustafa together with the sobriquet Saatçi for the composer of the piece. The CMO Source Catalogue underlines that while Öztuna (1990/II, p. 85) assumes that Saatçi is the same person as Muzaffer, there is no available manuscript in which both names are written together (“Sâ’atci”, https://corpus-musicae-ottomanicae.de/receive/cmo_person_00000199, accessed 14 April 2020).

⁵⁴ Olley (2017A, p. 70) argues that Andon Düzyan (1865–1814) as the composer of *Nühüft Peşrev* is certainly a misattribution and Andon in the headings of the versions of the piece could refer to another Andon, possibly Antoine de Murat (ca. 1739–1813), a student of Petros Peloponnesios. In our edition we preferred to use Andon Ağa (fl. ca. 1800) as an attribution for the piece since both figures lived the last phase of their lives during the late seventeenth and early eighteenth century. ‘Ağa’ as the title of Andon is only mentioned in the TR-Içağatay YZPER2 version of the composition.

to Kampos⁵⁵, from the seventeenth century. The oldest attributed figure is Eflâtûn⁵⁶, from the sixteenth century. In the manuscript, two pieces do not include any attribution: Hicaz Karabatak Peşrevi and Geveşt Peşrev.

Table 4. The attributions of the pieces in TR-Içağatay YZPER2.

Attribution	Pieces
Mandolin Artin (d. ca. 1870)	2 (fols. [02r], [17r])
No attribution	2 (fols. [03r], [18r])
Hampartsum Limonciyan (1768–1839)	1 (fol. [01r])
Dilhayât Kalfâ (d. ca. 1735)	1 (fol. [04r])
Selîm III (1761–1808)	1 (fol. [05r])
Kemânî Tatyos Efendi (1858–1913)	1 (fol. [06r])
Sâ'atci (fl. ca. 1740)	1 (fol. [07r])
Kantemiroğlu (1673–1723)	1 (fol. [08r–v])
Andon Ağa (fl. ca. 1800)	1 (fol. [09r–v])
Serneyzen Azîz Dede (d. 1905)	1 (fol. [10r])
Vardakosta Ahmed Ağa (d. ca. 1794)	1 (fol. [11r])
Kampos (d. ca. 1700)	1 (fol. [12r])
Tanbûrî İsak (d. after 1807)	1 (fol. [13r–v])
Sâdık Ağa (d. 1815)	1 (fol. [14r])
Kemânî Rızâ Efendi (1780–1852)	1 (fol. [15r])
Kemânî Sebuğ Ağa (1828–1894)	1 (fol. [16r])
Eflâtûn (d. ca. 1530)	1 (fol. [19r–v])
Tanbûrî Musî (d. ca. 1780)	1 (fol. [20r])
Zekî Mehmed Ağa (1776–1846)	1 (fol. [21r–v])

⁵⁵ Öztuna (1990/I, p. 36) catalogues Kampos as “Mehmed Çelebî veya Ağa [Kambosoğlu]”, and gives 1700? as his death year. Referring to Cantemir (1734-35, p. 151), Öztuna also mentions that he was a music student of Cantemir. In his treatise about the history of the Ottoman Empire, Cantemir cites Kampos as “Kamboso Mehmed Ağa”, and mentions that he was the instructor of Kampos for a new music theory and the notational system he developed himself.

⁵⁶ Öztuna (1990/I, p. 256) claims that Eflâtûn is the composer from the sixteenth century, who was brought to the Ottoman court from Tabriz by Selim I (r. 1512–1520) in 1514. Apart from giving his death year as 1530?, Öztuna bases his information about Eflâtûn on the manuscript which includes a collection of poet biographies (Tr. tezkire) written by Gelibolulu Mustafa Âlî (1541–1600). While the digital edition of this manuscript (İSEN 2017) includes a biographical section for Eflâtûn, Âlî does not mention anything about his relationship with music.

3.4 Provenance

Regarding the origin of our manuscript, it is safe to define the YZPER2 manuscript as of Armenian origin, based on the usage of Armenian alphabet in the headings and the Armenian letter ken (ճ), indicating repetition in the notation. Based on consulted concordances included in critical commentary sections of the YZPER2 edition, TR-Iüne 210-8 is both orthographically and paleographically the most similar Hampartsum notation to our manuscript. The handwriting style of Armenian headings and similar ink colour in TR-Iüne 210-8 are comparable with the YZPER2 manuscript (see Figure 4). Since neither the YZPER2 manuscript nor TR-Iüne 210-8 includes any signature or autograph of the scribe, identification of the scribe is not possible. However, we could consider the well known Armenian musician Leon Hanciyani or another Armenian figure from his circle as candidates for the possible scribes of the manuscript, since Ali Rifat Çağatay had close connections with Armenian communities. While periodization for TR-Iüne 210-8 manuscript is assisted by Jäger's (1996, p. xli) mention of it at the end of nineteenth century, it is possible to consider the same period for the YZPER2 manuscript as well. Since Mandolin Artin, Serneyzen Azîz Dede and Kemânî Sebuḥ Ağa are three attributions in the manuscript from the late nineteenth century, the critical editions of their compositions might reflect less divergence from the composer's version of the piece compared to later variants.

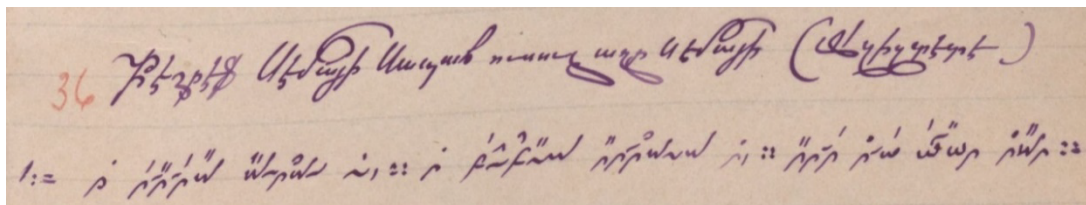

Figure 4. Beginning of Peşrev Semâî Sabâ, Usûl Ağır Semâî, by Azîz Dede in TR-Iüne 210-8, no. 36.

4. Editorial Aspects

4.1 Methodology

Due to the post-1880 periodization of YZPER2, this edition prefers to use alteration signs that are commonly used in modern Turkish music, referred to as the Arel-Ezgi-Uzdilek (AEU) system or the modern ‘comma’ (Tr. koma) system (see Table 5). The intervals applied in this edition represent relative position of the pitches and, do not intend to present exact intervallic values. Since ongoing disputes between theory and practice regarding the AEU system persist, all pieces included in the YZPER2 edition should be treated individually in relation to various parameters, including the period of the attributed composer and the modal understanding of the scribe reflected by his/her functional usage of the Hampartsum notation system. Since

transcriptions of this critical edition attempt to reflect functionality of Hampartsum notation system as closely as possible through the alteration signs of the AEU system, different interpretations of the pitches are left to the performer practice. Alteration signs included in key signatures are based on modal properties of the makâm and regularity of the pitches used in the YZPER2 version of the composition.

Table 5. AEU alteration signs.

Sharp	Flat	Name	Commas
#	↓	koma	1
#	♭	bakîye	4
#	♭	küçük mücenneb	5
#	♭	büyük mücenneb	8
×	♭♭	tânîî	9

Regarding usûl structures, the durations of single units in the transcriptions are based on division and end cycle signs used in the original notation. The main reference for usûl patterns are the usûl figures located in the private archive of Ali Rifat Çağatay. At the end of two Hampartsum manuscripts in the Çağatay archive, usûl patterns are indicated both with noteheads indicating duration of the beat and original symbols for beat types⁵⁷. Four main symbols are included in this rhythmic notation: Düm is represented with colon, “:”, dot “.” is used for tek and two different lines are used for teke and tâhek (see Figure 5). All usûl patterns and beat numbers for usûls included in the transcriptions of this study are based on Çağatay’s usûl patterns located in his personal archive. Exceptions to this include usûl düyek and aksak semâî / yürük semâî. Since patterns of these usûls are not included in Çağatay’s usûl figures, the usûl structure used in the editions of this study for düyek and aksak semâî/yürük semâî is based on Haşim Bey’s (HB1 1853; HB2 1864; YALÇIN 2016) and Ahmed Avni Konuk’s (HÂ 1901) music treatises, which describe similar basic patterns still used in modern Turkey. Another exception is the beat number for the Hicâz Karabatak Peşrevi located in fol. [03r]. Since the heading of this piece with Latin letters includes the beat number of usûl sakîl as 48, this beat number is used for the usûl structure of the piece instead of the 96 mentioned by Çağatay in his pattern for sakîl.

⁵⁷ TAŞDELEN 2019, p. 21.

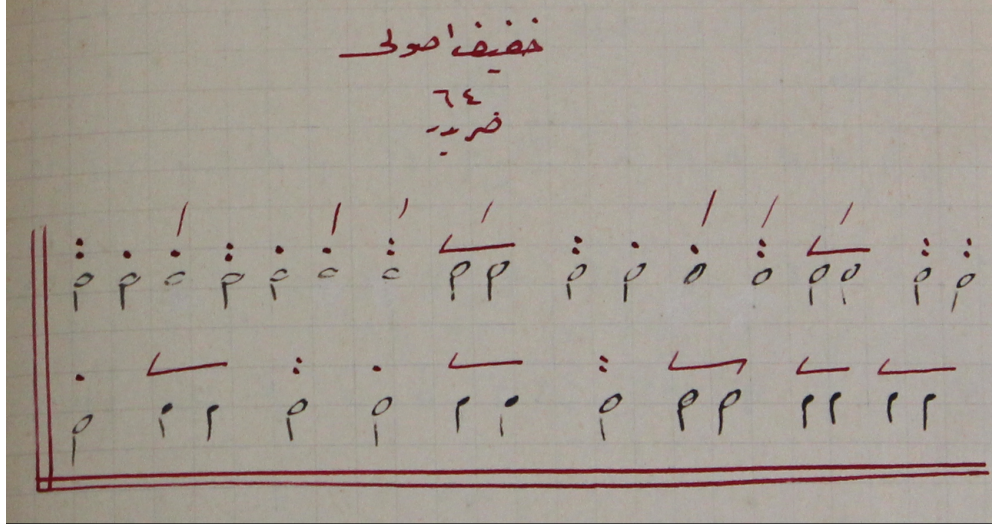

Figure 5. Rhythmic pattern of usûl haff in TR-Içağatay HDEF12.

4.2 Consulted Concordances

Variants or similar versions of the piece in other Hampartsum manuscript sources, which were consulted during the transcription and editorial process, are mentioned in the “consulted concordances” section of the critical commentaries of the editions. In this edition, the Hampartsum sources consulted were mostly limited to the manuscripts located in the private archive of Ali Rifat Çağatay (RISM Sigla: TR-Içağatay); İstanbul Üniversitesi Nadir Eserler Kütüphanesi (RISM Sigla: TR-Iüne); and İstanbul Üniversitesi Türkiyat Araştırmaları Enstitüsü Kütüphanesi (RISM Sigla: TR-Iütae). Two manuscripts located in the library of Surp Takavor Armenian Church in Istanbul (RISM Sigla: TR-Istek⁵⁸); and one manuscript from Istanbul Archeology Museum (RISM Sigla: TR-Iam) are also included throughout the study. Because of the uncatalogued nature of the Leon Hancıyan collection in the TRT Archive located in T.C. Cumhurbaşkanlığı Devlet Arşivleri Başkanlığı (RISM Sigla: TR-Iboa), only some of the editions refer to this collection. The concordances found in other historical collections like Ali Ufkı (RISM Sigla: GB-Lbl Sloane 3114), Kantemiroğlu (RISM Sigla: TR-Iütae 100) and Kevserî (TR-Am Mf1994 A 4941) are also mentioned in some cases. The references section of this study lists all manuscript sources consulted for the critical edition of the YZPER2 manuscript. Among these consulted concordances, comparative connections with YZPER2 were identified for TR-Iüne 210-8, TR-Iüne 206-4, TR-Istek [1] and TR-Istek [2]. These manuscripts all feature headings in Armenian script and belong to the Armenian circle of musicians. Similar ink colour to YZPER2 is also observed in TR-Iüne 210-8 and TR-Iüne 206-4. TR-Içağatay HDEF10

⁵⁸ Two Hampartsum manuscripts located in the Surp Takavor Armenian Church are not catalogued by the church and don't have shelfmarks. The CMO identifiers for these manuscripts in the CMO Source Catalogue are ST1 and ST2. The numbers [1] and [2] in RISM sigla used for these manuscripts in this edition refer to their CMO identifiers, e.g. TR-Istek [1] and TR-Istek [2].

is another manuscript that has apparent similarities with some pieces in YZPER2. HDEF10 is hand-written by Ali Rifat Çağatay and the versions included in this manuscript probably make use of some sources from the Armenian music circle. The last parallel connection with YZPER2 is TR-Iboa TRT.MD.d 373, belonging to the Leon Hancıyan collection. While these corresponding relationships are specified in the critical reports of relevant pieces in YZPER2, the consulted concordance section for every piece in YZPER2 also mentions them.

4.3 Editorial Interventions

In the transcriptions, square brackets are usually used for editorial interventions. One kind of intervention that involves an editorial to the notation is in fol. [02r], due to the torn left corner of the folio. In the same piece, at the end of the first hâne before Teslîm, one extra division is identified and omitted from the transcription. Another common situation that needs editorial intervention is related to the usage of endings (Tr. dolap) included in the teslîm sections of the pieces, where the scribe does not include different dolaps for other hânes. As an example of these situations, since the second dolap of the Teslîm was not suitable for connecting H3 with H4 in folio 11r, the first dolap at the end of H4 before the Teslîm is preferred for connecting the section with the beginning of H4. In the same piece, the second dolap of the Teslîm was also not suitable for the karâr of the piece. The relevant division in the transcription (div. 55) is based on TR-Iütâe TA108. Another similar case occurs in fol. [21v] where the first dolap of the Teslîm is preferred for connecting H4 with H5. In the same piece, an extra division with düğâh as the final pitch is included as well because of the modal incompatibility of the second dolap of the Teslîm with the karâr of the composition. Regarding the usage of the Armenian ken letter (յ) for repetition of the sections, in fol. [07r] this letter is used in the second hâne before the usûl cycle is over. In this situation, the editor preferred to include the second dolap of H1 as an extra division in the transcription to complete the cycle and connect the section with the beginning of H2.

Another case requiring intervention is in divisions missing from long usûl structures. As an example of this, Nühüft Peşrevi in usûl hâvî in fol. [09r-v] is divided to sixteen rhythmic sections in the notation. Since one divided section of the second hâvi cycle in the third hâne is missing in the notation, the missing section first needed to be identified. Based on comparisons with the other versions of the composition, the most analogous Hampartsum version of the composition was in TR-Içağatay HDEF8. After analyzing H3, the third section of the second hâvî cycle was identified as missing in the YZPER2 version of the composition. This gap was repaired in the manuscript by using the equivalent section in HDEF8, and this editorial intervention in the transcription was indicated with square brackets. A similar case is encountered in fol. [13r-v] with three missing divisions. The additions for the relevant divisions in this folio are based on the most similar version of the composition in TR-Iütâe TA109.

the remaining compositions written with *usûl düyek*⁶³, the scribe divides the *usûl* into two main units, incorporating both a division sign at the end of first unit with four groupings and an end cycle sign at the end of the second unit with four groupings, for a total of eight groupings. The *usûl* pattern during these cases is interpreted as *çifte düyek* with a 16/4 time signature. In other words, during the transcription of the *düyek* pattern, both cases are interpreted as *ağır* (slow) *düyek*/*çifte düyek*, 8/4 and 16/4 time signatures respectively. In longer *usûls*, both division signs and groupings based on the beat number of the *usûl* also reflect possible rhythmic indication of the composition applied by the scribe. As explained by Tura (2001/I, p. XXXII) in a similar manner for the alphabetical notation system of Kantemiroğlu, these cases are crucial examples regarding rhythmic indication contained within the notation system.

Another distinctive characteristic of the scribe's usage of the notation system concerns the grace notes in the notation. Grace notes are shown in the system in a smaller size superscript above the pitch signs, usually preceding a note or grouping. While grace notes that include more than one pitch sign can be observed in other Hampartsum manuscripts, throughout the YZPER2 manuscript grace notes always occur with one pitch sign. Grace notes in this study are interpreted as eighth note *acciaccatura*. However, the position of some grace notes in the manuscript suggest that the scribe is reflecting distinctive aspects of the performance of the compositions. Throughout the manuscript, some cases could be clearly observed in which the scribe intentionally put the grace note after the main pitch sign (see Figure 7). These occurrences of grace notes were reflected in the transcriptions by placing the *acciaccatura* after the corresponding main notes to which the scribe intended to connect the grace note. This kind of grace note usage prompts requires further examination regarding the performance practice of these sections.

Figure 7. An example of grace note positioned after the main pitch sign.

4.5 Performance Practice

In the YZPER2 manuscript, there are particular cases where the scribe uses the notations system to reflect his/her understanding of the *makam*'s structural properties. In the original notation of *Sâzkâr Peşrevi* (fol. [20r]), the scribe consistently uses both *segâh* (↻) and *bûselik* (↻) during *seyirs* with *Uşşâk* genus. During these cases, *bûselik* is interpreted as *dik*

⁶³ See fols. [05r], [07r] and [17r].

(sharpened) bûselik in the transcription. Based on these usages of pitch signs, the scribe points out the intended pitch level of particular perdes in the notation system. The usage of dik bûselik in this composition is an important example of the characteristic performance practice of the scribe's era for the pitch structure of makâm Sâzkâr, captured and reflected by the scribe.⁶⁴ In his musical treatise *Hızır Ağa* (USLU 2014, p. 169) also indicated perde dik bûselik while defining the seyir of Sâzkâr.⁶⁵ Kutluğ (2000/I, pp. 308–39) emphasizes the importance of perde dik bûselik for the performance practice of makâm Sâzkâr as well.

The critical edition of this study also attempts to reflect the individuality of the scribe in terms of his or her particular understanding of makamic conventions, as reflected in the usage of adapted key signatures in the transcriptions that are based on the scribe's usage of perdes for the version of the composition. A prominent example for this case could be *Sûznâk Peşrevi* located in fol. [06r]. Throughout the notated version of the piece, the scribe persistently uses the mâhûr perde sign instead of evc for Hicâz genus on nevâ. Together with perde hisâr, the performance practice of perde mâhûr for the execution of Hicâz genus on nevâ becomes crucial, analogous with the intention reflected by the scribe through the usage of perde signs in the notation for the understanding of Sûznâk makâm properties. Because of these cases in the notation, the key signature of the transcription includes Mâhur and Hisâr together with Segâh in the transcription. Similar usage of the Hicâz genus could be also observed in the *Muhayyer Peşrevi* located in fol. [02r].

4.6 Structural Aspects

Another aspect of the critical edition is the representation of form and pitch structure of the compositions provided in the critical commentary section. Out of twenty peşrevs in the manuscript, sixteen peşrevs have four hânes. From these sixteen peşrevs, eleven peşrevs include a teslîm section either following every hâne for short usûls or within the long usûl cycle. If the remaining peşrevs are examined more closely, structural differences can be observed regarding the practice of the teslîm section. While the first, second and fourth hâne of *Şedd-i Karcıgar Peşrevi* in fol. [01r] include a teslîm section, the second hâne of the piece does not include a teslîm section, confirmed by the two endings at the end of this hâne. A

⁶⁴ Prof. Ruhi Ayangil (2019) emphasizes that while segâh genus as the third degree of Râst is usually used in makâm Sâzkâr, this composition creates gravitational field on Uşşâk genus through the usage of Irak genus as a diminished fifth interval that covers perde dik bûselik as well.

⁶⁵ In her study titled *Mûsikî Risaleleri*, Doğrusöz (2012, pp. 56–57) emphasizes that other than bûselik, Sâzkâr is another perde between segâh and çargah, based on her analysis of the perde system located in the second section of the theoretical manuscript of makam music, *Risâle-i Mûsikî* (eighteenth century). The definition of makâm Sâzkâr in this section of the manuscript also implies this perde and explains its location as between segâh and nim bûselik.

similar example is Kürdî Peşrevi (fol. [07r]) in which the first hâne of the piece has no teslîm, but is repeated, since this section also includes first and second endings. Another identical case occurs in Nühüft Peşrevi (fols. [09r–v]) when the third hâne of the composition does not have teslîm section; also Acem bûselik Peşrevi lacks a teslîm section in the fifth hâne. The compositions without marked teslîm section are Bûselik aşîran Peşrevi (fols. [08r–v]), Segâh Zülf-i nigâr Peşrevi (fol. [17r]) and Sâzkâr Peşrevi (fol. [20r]). However, Bûselik aşîran Peşrevi is written as three hânes while consulted concordances of this piece have completely different formal structure with four hânes. Another example for a peşrev with three hânes is Hicâz Karabatak Peşrevi. This piece consists of *batac* sections on the second and third hâne. In the manuscript there are also two pieces with five hânes: Acem bûselik Peşrevi in usûl sakîl (fol. [14r]) and Bûselik Peşrevi in usûl darb-ı fetih (fols. [21r–v]).

Based on the number of pitches (Tr. perde) used in the compositions of the manuscript, the average perde usage for all the pieces in the manuscript is twenty, or about a two-octave range. The narrowest pitch range was found in the Sâzkâr Peşrevi, attributed to the eighteenth-century composer Tanbûrî Musî (d. ca. 1780), which uses only eleven perdes throughout the composition. This piece is a compositionally distinctive example in many ways, including makamic conventions of the period and the usage of long usûl with limited perde variety. The widest pitch range in the YZPER2 manuscript could be observed in Nühüft Peşrevi in usûl hâvî. Between perde yegâh and tiz hüseyinî, twenty-seven perdes are used in this composition.

4.7 Historical Value

Other than characteristic usage of the notation system based on paleographic specifications of the manuscript, the value of the manuscript as a historical source needs to be examined as well. Jäger (2015, p. 43) underlines that the term “source” is not a category for the practice of traditional Turkish art music due to the oral tradition of the culture, which does not require the written fixation of a more or less binding variant for the production of the source. Jäger’s point reflects the preservational purpose of the musical notations in Turkish Music. Another paradoxical source-based issue described by Behar (2015, p. 168–69) underlines that aesthetic considerations reserved for written cultures could still be applied, despite the primacy of oral transmission in the Ottoman cultural sphere. Drawing on an example from an eighteenth-century manuscript about musicians of the Ottoman court, *Atrabü’l Âsâr fi Tezkireti ‘Urefâ-il Edvâr*, written by Şeyhülislam Es’ad Efendi (1685–1753), Behar emphasizes that the musicians were aware that compositions changed during oral transmission process and they placed a higher aesthetic value on the performance of compositions which remained relatively unchanged. Behar reminds us that notated versions of compositions could not block the appearance of new variants of the compositions.

The historical value of the manuscript is underlined in this edition, which displays the many facets and qualities of the manuscript that are only accessible through the notated versions of the compositions in YZPER2. Consultation of concordances are limited to other manuscript sources written in Hampartsum notation. Based on this consultation process, out of twenty-one compositions included in the manuscript, nineteen of them have at least one or more concordances.⁶⁶ Detailed musicological comparisons between different versions of the same composition are beyond the scope of this edition. However, it is possible to comment on the significance of these critical editions as a historical source based on brief comparisons with consulted concordances of these pieces.

Hicaz Karabatak Peşrevi (fol. [03r]) is the only notation with headings in Latin letters in the YZPER2: *Péchréf Hidjaz karabatak, oussoul sakil* (48). It is also the only case in which beat number is provided by the scribe for the usûl. *Karabatak* is both a compositional genre and a performance style in Turkish Music, in which certain musical phrases of the composition alternate between instruments.⁶⁷ The term is used for the first time by Kemânî Hızır Ağa, a music theorist from the eighteenth-century Ottoman court.⁶⁸ In the YZPER2 version of the Hicaz Karabatak Peşrevi, the last seven divisions of the second hane are labelled *batak*, and these divisions are repeated at the end of the third hâne as well. These sections could be interpreted as an indication by the scribe that these sections should be performed by a solo instrument or group of instruments such as bowed or plucked instruments.⁶⁹ While the scribe of YZPER2 didn't attribute this piece to any composer, one consulted concordance located in TR-Istek [2] attributes it to Arabzâde.⁷⁰ Another attribution for this composition is located in Ezgi's music treatise (NATM/I, pp. 72–74) and İstanbul Konservatuvarı Neşriyatı (TMKL-AYI/11 1936, pp. 554–57) in staff notation. The footnote in the conservatory edition mentions Hızır Ağa as the composer of the piece.⁷¹ While TR-Istek [1] includes two versions of the

⁶⁶ All folios except fol. [06r] and [16r].

⁶⁷ For more information about *karabatak* as a compositional and performance-oriented genre in Turkish Music, see AYANGİL 2017.

⁶⁸ For further information on Hızır Ağa and his music treatise, see USLU 2014.

⁶⁹ Another version of the piece located in TR-Iütâe TA109 (pp. 174–75) includes only two hânes and two different sub-sections of the second hâne marked as *batâk* and *berâber* (tutti) as performance instruction. Based on this concordance, the *berâber* marking is added in the transcription of YZPER2 edition with square brackets.

⁷⁰ Arabzâde Abdurrahman Bâhir Efendi (1689–1746) is a seventeenth-century Turkish composer from İstanbul (ÖZTUNA 1990/I, pp. 11–12). In his study on Hızır Ağa, Uslu (2014, pp. 82–84) also mentions Arabzâde as another composer for Hicâz Karabatak Peşrevi. Both Öztuna and Uslu argue that the usûl of this piece is *devr-i kebîr*.

⁷¹ Apart from attribution of the piece to Hızır Ağa, the footnote also mentions that while the original composition is in usûl sakîl, the Mevlevî âyin tradition plays the three hâne of the piece in a style of usûl *yürük* düyek.

composition, the one with the heading in Armenain script, “Pēšrēf Hicaz K‘arabat‘ak Usuli Sakil Yēni yōlda⁷²” (p. [189]) is the most similar concordance to the YZPER2 version. Based on brief comparisons of our version with these concordances, the version in the YZPER2 manuscript could be defined as a distinctive version of the composition.

The Hampartsum manuscripts with the most similar concordances to the YZPER2 versions are located in TR-Iüne 210-8 and TR-Iboa TRT.MD.d 373. Evcârâ Peşrevi (fol. [04r]) and Sabâ Saz Semâîsi (fol. [10r]) are very similar to the versions of the same pieces in TR-Iüne 210-8. Since headings included in this manuscript are written in the Armenian alphabet as well, both YZPER2 and TR-Iüne 210-8 could be defined as belonging to an Armenian circle of musicians. Another case occurs with TR-Iboa TRT.MD.d 373, which is the collection of Leon Hancıyan located in the TRT Archive section of T.C. Cumhurbaşkanlığı Devlet Arşivleri Başkanlığı Osmanlı Arşivi. Kürdî Peşrevi (fol. 07r) is identical with the version in TR-Iboa TRT.MD.d 373 as well. Another analogous connection could be found between the YZPER2 version of Acem bûselik Peşrevi (fol. [14r]) and the concordance in TR-Istek [1].

Uşşak Peşrevi (fol. [12r]) in YZPER2 is another crucial example for the attributional arguments on the historical repertoire of Turkish Music. While Uşşâk Peşrevi in the YZPER2 manuscript refers to Kanpos in its heading, consulted concordances in usûl düyek found for this composition are titled as *Kanpos Nazîresi*.⁷³ Writing the compositions with a different usûl could also be observed in various versions of the compositions. Since all Hampartsum versions found for Tâhir bûselik Peşrevi are written with usûl düyek, the YZPER2 version in fol. [15r] could be identified as the only Hampartsum version of the composition written in usûl muhammes based on the Hampartsum sources that were consulted for this study.⁷⁴ Similarly for Sazkâr Peşrevi (fol. [20r]) in the YZPER2 manuscript. All eight concordances of the

⁷² *Yeni yolda* literally means “with the new way” in Turkish, which indicates the reformist, progressive style of composition of the time.

⁷³ *Nazîre* in Eastern literature means responding to another author’s poem with a new poem with the same poetic meter (DEVELLİOĞLU 2012, p. 952) as an indication of deep respect. Similar in principle, *nazîre* in Turkish Music terminology refers to compositions that indicates an honorary attitude towards another composer’s piece. Feldman (1996, pp. 431–32) underlines that the relationship between the original and the parallel is not usually a demonstrable formal relationship beyond the identity of makâm and usûl. For further comparative analyses between original compositions and *nazîre* variants, see FELDMAN 1996, pp. 431–41. The main versions of *Kanpos Nazîresi* are probably recorded both by Kantemiroğlu (TR-Iütâe 100, no. 232; attribution to anboşo Mehmed elebi, see TURA 200, p. 440) and Kevserî (TR-Am Mf1994 A 4941, no. 96; attribution to anpoşo Muhammed elebi, see EKİNCİ 2016), both versions in usûl haff. For further arguments and musicological comparisons of the different versions of *Uşşak Kanpos Nazîresi* see EKİNCİ 2019.

⁷⁴ While *Darüelhân Külliyyatı* in staff notation includes this composition in usûl muhammes (TMKLiî no. 86/1), it is not identical with the YZPER2 edition.

composition are in *usûl darbeyn*.⁷⁵ The version of the composition included in the YZPER2 manuscript is the only Hampartsum version with *usûl zencîr*.

In the manuscript, the main heading of the first folio is “P. *şet’ harç’igar, o. faht’ê, Babanın*”. The *şed* prefix in *makâm* theory means transposition of the related *makâm* to another pitch location. In his *makâm* treatise, Kantemiroğlu defines *şed makâm*s as transposing one *makâm* four *perdes* above or below, e.g. *aşîrân* and *dügâh*, *ırak* and *segâh*, *râst* and *çârgâh*, *dügâh* and *hüseynî*⁷⁶ (TURA 2001, pp. 98–101). If we examine the *Şedd-i Karcıgar* composition in the YZPER2 manuscript more closely, the *seyir* structure of the composition is similar to Kantemiroğlu’s definition of *makâm Karcıgar* (TURA 2001, p. 111). Kantemiroğlu describes the starting point of the *makâm* as *perde gerdâniye*, usage of *perde acem* together with *bayâtî* and *karâr* (*finalis*) on *nevâ*.⁷⁷ These aspects Kantemiroğlu mentions for the *makâm* are analogous with the *Karcıgar* composition in the YZPER2 manuscript. However, since all concordances with a similar *seyir* structure do not include the *şed* prefix in their headings, this fact implies that the scribe learned the new version of *Karcıgar makâm* in which *dügâh* is the tonic, then defined the *makâm* properties of the composition as *şed* with the reflection of his understanding of the *makâm* in the heading of the notation. Regarding the attribution of the composition, two versions refer to *Baba* in the heading of the notation including YZPER2 and TR-Iütae 249. Out of the remaining four consulted concordances of the piece, the version with Armenian script, TR-Istek [1], mentions *Usta Hampartsum* in the title of the notation and another one with Arabian script (TR-Iüne 211) refers to “*Tatar*”⁷⁸ in the heading. The version in TR-Iütae 107 and another version TR-Iütae 249 doesn’t include any attribution in the title. Based on these attributions, the YZPER2 edition attributed this piece to *Hampartsum Limonciyan* because of the Armenian origin of both the YZPER2 manuscript and TR-Istek [1].

⁷⁵ *Darbeyn* is the genre of compound *usûl*s. The editions of *Sâzkâr Peşrev* in *usûl darbeyn* combines two times *devr-i kebîr* (28 beats) and two times *berefsân* (32 beats), in which total beat number of 120 beats, which is the same beat number as *zencîr*.

⁷⁶ Regarding the intervallistic relationship of *şed* theory in *makâm*, Kantemiroğlu argues that while four steps above *dügâh* is *nevâ*, similar to a perfect fifth interval between *yegâh* and *dügâh*, *hüseynî* becomes the correct location for transposition from *dügâh* (TURA 2001, p. 99). *Haşim Bey* also mentions the same for *dügâh* and *hüseynî* (YALÇIN 2016, pp. 250–51).

⁷⁷ *Karcıgar makâm* includes *Uşşâk* genus on *dügâh* together with *Hicâz* genus on *nevâ* in modern *makâm* theory (KUTLUĞ 2000, pp. 186–89). *Kutluğ* mentions that inclusion of *Kürdî* genus on *nevâ* in Kantemiroğlu’s definition of *makâm Karcıgar* is controversial. However, *Ayangil* (2019) underlines that *Uşşâk* genus on *nevâ* should include *dik hisâr*, in other words *bayâtî* instead of *hüseynî* in practice based on today’s understanding of *makâm Karcıgar*. While the usage of flatter version of *perde bayâtî* creates *Uşşâk* genus on *nevâ*, *Hicâz* genus appears on *gerdâniye* with the usage of *perde şehnâz*, *tiz segâh* and *tiz çârgâh*.

⁷⁸ Probably a misspelling of *Baba* by the scribe.

Another important case is related to the piece with the heading “P. Sēgeah Zülfünigear, o. düēēk, Mandōlinin” (fol. [17r]) in the YZPER2 manuscript. While three different versions⁷⁹ were found for this composition in other Hampartsum manuscripts, the only similar version is located in TR-Istek [2] with the attribution in the heading as Ruzi. Since the scribe of TR-Istek [2] is Mandolin Artin (fl. ca. 1870), and the name Ruzi is attributed to Mandoli Artin according to the CMO Source Catalogue, the YZPER2 version is the only one with the attribution directly indicating Mandolin Artin. Regarding Nikriz Peşrevi located in fol. [19r–v], this piece is attributed to Eflâtun (fl. ca. 1650) and could be defined as the oldest composition in YZPER2 manuscript based on this attribution.

Throughout this edition two compositions must be noted as proving the value of the repertoire in the YZPER2 manuscript as a historical source. The first composition is Sûznâk Peşrevi, attributed to the late-nineteenth-century composer Kemânî Tatyos Efendi. While concordances in staff notation could be found for the piece, the version in the YZPER2 manuscript appears to be the only version in Hampartsum notation based on the scope of the Hampartsum sources for this edition. The second composition, Muhayyer kürdî Peşrevi in usûl düyek, is attributed to the late-nineteenth-century composer Kemânî Sebuḥ Aḡa. Located in fol. [16r] it is the most important composition of the manuscript since concordances could be found neither in the Hampartsum collections nor in staff notation.

4.8 Final Commentary

Since the YZPER2 manuscript should be defined as a written version of pieces primarily transmitted orally, the transmitted source changes constantly in a cultural context. Any historical inquiry always needs to consider the embedded nature of the subject which is a diachronic quest in the synchronic reality of social and musical processes (QURESHI 1991, p. 103). In other words, the written fixation of the musical transmission not only reflects partial information about a subject that potentially progresses through time, it also encodes information about the traditional parameters according to which compositions change over time. This information could also enrich the historical narrative of the tradition. Any attempt to historically reconstruct the musical source must consider the impact of its contemporary social and cultural context on the ongoing process of practice-oriented musical transmission.

⁷⁹ *Zülf-i nigâr* as a title is a debateable subject since we find a piece with the heading “Segâh Zülf-i nigâr” in usûl düyek both in the collections of Ali Ufkî (GB-Lbl Sloane 3114), Kantemiroḡlu (TR-Iütâe 100) and Kevserî (TR-Am Mf1994 A 4941). Also important is the concordance in TR-Iüne 203-1. The Armenian heading of the piece in this manuscript is “sēgyahdē zülfünigyar düyek”. Since “Segah’da Zülf-i nigâr” literally means Zülf-i nigâr on segâh, the title could be interpreted as a transposed version of the composition.

As could be seen from the commentaries derived from the critical edition of the YZPER2 manuscript, multiple musicological aspects of the outputs provided by the edition need further examination and discussion. In Turkish Music, *usûl* is defined by Behar (1998, p. 21) as a mnemonic tool for the oral transmission of repertoire through the tradition of *meşk*. In his study on the transformation of *peşrevs* in the eighteenth and nineteenth century Ottoman Empire, Olley (2017B, p. 180) underlines that the *peşrevs* in *usûl düyek* display greater melodic divergence from their earlier versions to the extent that there is little or no correspondence between them in later sections. A similar case could be observed regarding some versions of the compositions in the YZPER2 manuscript with *usûl düyek*, based on brief comparisons of the YZPER2 versions with the consulted concordances. Olley connects this divergence with the brevity of the rhythmic cycle since it entails smaller scale melodic phrasing that could allow more variation when memorizing the piece.

Attributions included in the YZPER2 manuscript are also crucial aspects of the edition that need to be examined further. In their article examining forms of resistance and practices of adoption regarding written music during the modernization process across the eighteenth and nineteenth centuries in the Ottoman-Turkish cultural sphere, Ergur and Doğrusöz (2015, p. 162) mention Howard S. Becker's (1984, p. 50) approach on works of art as joint products of actors cooperating in an art world, in accordance with some socially approved conventions. The authors emphasize the erroneous aspect of written forms, attributed to the special gift of one artist in Ottoman *makâm* music, who is thus considered more privileged in comparison with other members of the society. Jäger (2015, p. 39) also emphasizes that a "composer" in the Ottoman context is not an "original genius", who by himself creates anew. He is rather a person experienced in the musical tradition, who – within certain rules – through the combination of basic elements of form, rhythm and melodic models, creates a new derivation. Through the transmission of these derivations, different variants of the composition appear that include aesthetic, elaborated additions in the composition. These features of Turkish *makâm* music-writing make identifying the scribe of the notation, rather than composer, absolutely crucial. The manuscript to testament to the scribe's preference for preserving a certain version of the composition within the oral transmission parameters of the cultural tradition.

The most important contribution of the critical edition is in providing concrete historiographical data with synchronic perspective through creating historically and scholarly more accurate notational editions. Comparative analyses based on various sources included in the editions' concordance section could also provide new cultural, historical, musicological connections that require synchronic sensitivity because of the complexity of primarily oral traditions.

30

31

This system contains measures 30 and 31. The upper staff is in treble clef with a key signature of two flats and a common time signature. It features a melodic line with eighth and sixteenth notes. The lower staff is in bass clef and provides a harmonic accompaniment with quarter and eighth notes. Measure 30 includes a fermata over the final note.

32 1. 33 2. 34

This system contains measures 32, 33, and 34. Measure 32 has a first ending bracket. Measure 33 has a second ending bracket. Measure 34 is the final measure of the system. The notation includes various note values and rests in both staves.

3. [Hâne] /8/ 35

3. [Hâne] /8/ 35

This system contains measures 35 and 36. Measure 35 is the start of a section labeled "3. [Hâne]". The notation continues with a melodic line in the upper staff and accompaniment in the lower staff. Measure 36 includes a fermata over the final note.

36 37

36 37

This system contains measures 36 and 37. Measure 36 has a fermata over the final note. Measure 37 continues the melodic and accompaniment lines.

38 /9/ 39

38 /9/ 39

This system contains measures 38 and 39. Measure 38 includes a fermata over the final note. Measure 39 is the start of a section labeled "/9/".

40 41

40 41

This system contains measures 40 and 41. Measure 40 includes a fermata over the final note. Measure 41 continues the melodic and accompaniment lines.

50 51

Musical notation for measures 50 and 51. The system consists of a treble clef staff and a bass clef staff. Measure 50 features a melodic line in the treble staff with eighth and quarter notes, and a bass line with quarter notes. Measure 51 continues the melodic line with a more active eighth-note pattern, while the bass line has a long note with a slur.

/12/ 52 53

Musical notation for measures 52 and 53. Measure 52 shows a melodic line with a dotted quarter note and eighth notes, and a bass line with quarter notes. Measure 53 continues the melodic line with eighth notes, and the bass line has a long note with a slur.

54 55

Musical notation for measures 54 and 55. Measure 54 features a melodic line with eighth notes and a bass line with quarter notes. Measure 55 continues the melodic line with eighth notes, and the bass line has a long note with a slur.

56 57

Musical notation for measures 56 and 57. Measure 56 shows a melodic line with eighth notes and a bass line with quarter notes. Measure 57 continues the melodic line with eighth notes, and the bass line has a long note with a slur.

58 59

Musical notation for measures 58 and 59. Measure 58 features a melodic line with eighth notes and a bass line with quarter notes. Measure 59 continues the melodic line with eighth notes, and the bass line has a long note with a slur.

60 61

Musical notation for measures 60 and 61. Measure 60 shows a melodic line with eighth notes and a bass line with quarter notes. Measure 61 continues the melodic line with eighth notes, and the bass line has a long note with a slur.

62 /14/ 63

Musical notation for measures 62-63. Treble clef, key signature of two flats, 4/4 time. Measure 62 contains a melodic line with eighth and sixteenth notes. Measure 63 continues the melody. The bass line consists of quarter notes and a final dyad with a slur.

64 65

Musical notation for measures 64-65. Treble clef, key signature of two flats, 4/4 time. Measure 64 continues the melodic line. Measure 65 features a melodic line with a quarter rest in the middle. The bass line consists of quarter notes and a final dyad with a slur.

66 67

Musical notation for measures 66-67. Treble clef, key signature of two flats, 4/4 time. Measure 66 continues the melodic line. Measure 67 features a melodic line with a quarter rest at the end. The bass line consists of quarter notes and a final dyad with a slur.

/15/ 68 69

Musical notation for measures 68-69. Treble clef, key signature of two flats, 4/4 time. Measure 68 starts with a quarter rest followed by a melodic line. Measure 69 continues the melody. The bass line consists of quarter notes and a final dyad with a slur.

70 [Teslîm]

Musical notation for measure 70. Treble clef, key signature of two flats, 4/4 time. Measure 70 is marked with a double bar line and a fermata symbol, labeled "[Teslîm]". The bass line consists of quarter notes.

Musical notation for the final system. Treble clef, key signature of two flats, 4/4 time. The system contains a melodic line and a bass line with a final dyad with a slur.

8 9

Musical notation for measures 8 and 9. The top staff is a treble clef with a key signature of one sharp (F#). The bottom staff is a bass clef. Measure 8 has a treble staff with a melodic line and a bass staff with a sustained chord. Measure 9 continues the melody and has a sustained chord in the bass.

/3/ 10 11

Musical notation for measures 10 and 11. The top staff is a treble clef with a key signature of one sharp (F#). The bottom staff is a bass clef. Measure 10 has a treble staff with a melodic line and a bass staff with a sustained chord. Measure 11 continues the melody and has a sustained chord in the bass.

12

Musical notation for measure 12. The top staff is a treble clef with a key signature of one sharp (F#). The bottom staff is a bass clef. Measure 12 has a treble staff with a melodic line and a bass staff with a sustained chord.

[Teslîm] /4/ 13 14

Musical notation for measures 13 and 14. The top staff is a treble clef with a key signature of one sharp (F#). The bottom staff is a bass clef. Measure 13 has a treble staff with a melodic line and a bass staff with a sustained chord. Measure 14 continues the melody and has a sustained chord in the bass.

15 16

Musical notation for measures 15 and 16. The top staff is a treble clef with a key signature of one sharp (F#). The bottom staff is a bass clef. Measure 15 has a treble staff with a melodic line and a bass staff with a sustained chord. Measure 16 continues the melody and has a sustained chord in the bass.

2. [Hâne] /5/ 17

Musical notation for measure 17. The top staff is a treble clef with a key signature of one sharp (F#). The bottom staff is a bass clef. Measure 17 has a treble staff with a melodic line and a bass staff with a sustained chord.

18 19

Musical notation for measures 18 and 19. The system consists of a treble clef staff and a bass clef staff. Measure 18 features a melodic line in the treble staff with eighth notes and a bass line with a half note. Measure 19 continues the melodic line with a trill-like figure and a bass line with a half note.

20 21

Musical notation for measures 20 and 21. Measure 20 includes a trill-like figure in the treble staff and a bass line with a half note. Measure 21 features a melodic line with a trill-like figure and a bass line with a half note.

22 23

Musical notation for measures 22 and 23. Measure 22 shows a melodic line with a trill-like figure and a bass line with a half note. Measure 23 continues the melodic line with a trill-like figure and a bass line with a half note.

24 25

Musical notation for measures 24 and 25. Measure 24 includes a trill-like figure in the treble staff and a bass line with a half note. Measure 25 features a melodic line with a trill-like figure and a bass line with a half note.

26 27

Musical notation for measures 26 and 27. Measure 26 shows a melodic line with a trill-like figure and a bass line with a half note. Measure 27 continues the melodic line with a trill-like figure and a bass line with a half note.

28 [Tslîm]

Musical notation for measure 28. The system consists of a treble clef staff and a bass clef staff. Measure 28 features a melodic line with a trill-like figure and a bass line with a half note. The measure is marked with a fermata and the text "[Tslîm]".

First system of musical notation, measures 1-2. The upper staff is in treble clef with a key signature of one sharp (F#). The lower staff is in bass clef. Measure 1 contains a quarter note G4, a quarter note A4, and a quarter note B4. Measure 2 contains a quarter note C5, a quarter note B4, a quarter note A4, and a quarter note G4. There are repeat signs above the staff.

Second system of musical notation, measures 3-4. The upper staff continues the melody. Measure 3 contains a quarter note F#4, a quarter note G4, a quarter note A4, and a quarter note B4. Measure 4 contains a quarter note C5, a quarter note B4, a quarter note A4, and a quarter note G4. There are repeat signs above the staff.

3. [Hâne]

Third system of musical notation, measures 5-6. The upper staff begins with a treble clef and a key signature of one sharp. Measure 5 contains a quarter note G4, a quarter note A4, a quarter note B4, and a quarter note C5. Measure 6 contains a quarter note B4, a quarter note A4, a quarter note G4, and a quarter note F#4. There are repeat signs above the staff.

Fourth system of musical notation, measures 7-8. The upper staff contains a sequence of eighth notes: G4, A4, B4, C5, B4, A4, G4, F#4. Measure 7 ends with a quarter rest. Measure 8 contains a quarter note G4, a quarter note A4, a quarter note B4, and a quarter note C5. There are repeat signs above the staff.

Fifth system of musical notation, measures 9-10. The upper staff contains a sequence of eighth notes: G4, A4, B4, C5, B4, A4, G4, F#4. Measure 9 ends with a quarter rest. Measure 10 contains a quarter note G4, a quarter note A4, a quarter note B4, and a quarter note C5. There are repeat signs above the staff.

Sixth system of musical notation, measures 11-12. The upper staff contains a sequence of eighth notes: G4, A4, B4, C5, B4, A4, G4, F#4. Measure 11 ends with a quarter rest. Measure 12 contains a quarter note G4, a quarter note A4, a quarter note B4, and a quarter note C5. There are repeat signs above the staff.

36 /10/ 37

Musical notation for measures 36-37. The upper staff is in treble clef with a key signature of one sharp (F#). The lower staff is in bass clef. Measure 36 features a melodic line in the upper staff and a sustained chord in the lower staff. Measure 37 continues the melodic line with a trill-like figure and a change in the lower staff.

38 39

Musical notation for measures 38-39. The upper staff continues the melodic line with a trill-like figure. The lower staff has a sustained chord in measure 38 and a single note in measure 39.

40 [Teslîm]

Musical notation for measures 40-41. Measure 40 features a melodic line in the upper staff and a sustained chord in the lower staff. Measure 41 is marked with a fermata and a key signature change to one flat (Bb). The upper staff has a melodic line, and the lower staff has a sustained chord.

Musical notation for measures 42-43. The upper staff continues the melodic line with a trill-like figure. The lower staff has a sustained chord in measure 42 and a single note in measure 43.

Musical notation for measures 44-45. The upper staff continues the melodic line with a trill-like figure. The lower staff has a sustained chord in measure 44 and a single note in measure 45.

4. [Hâne] /11/ 41

Musical notation for measure 41, labeled "4. [Hâne]". The upper staff is in treble clef with a key signature of one sharp (F#). The lower staff is in bass clef. The measure features a melodic line in the upper staff and a sustained chord in the lower staff.

42 43

Musical score for measures 42-43. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with eighth and sixteenth notes, including accidentals (sharps and naturals). The bass staff contains a simple accompaniment of quarter and half notes. Above the treble staff, there are rhythmic flags and a double bar line. Measure numbers 42 and 43 are indicated at the top.

44 /12/ 45

Musical score for measures 44-45. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with eighth and sixteenth notes, including accidentals. The bass staff contains a simple accompaniment of quarter and half notes. Above the treble staff, there are rhythmic flags and a double bar line. Measure numbers 44 and 45 are indicated at the top, with a "/12/" marking above measure 45.

46 47

Musical score for measures 46-47. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with eighth and sixteenth notes, including accidentals. The bass staff contains a simple accompaniment of quarter and half notes. Above the treble staff, there are rhythmic flags and a double bar line. Measure numbers 46 and 47 are indicated at the top.

48 /13/ 49

Musical score for measures 48-49. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with eighth and sixteenth notes, including accidentals. The bass staff contains a simple accompaniment of quarter and half notes. Above the treble staff, there are rhythmic flags and a double bar line. Measure numbers 48 and 49 are indicated at the top, with a "/13/" marking above measure 49.

50 51

Musical score for measures 50-51. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with eighth and sixteenth notes, including accidentals. The bass staff contains a simple accompaniment of quarter and half notes. Above the treble staff, there are rhythmic flags and a double bar line. Measure numbers 50 and 51 are indicated at the top.

52 [Teslîm]

Musical score for measures 52-53. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with eighth and sixteenth notes, including accidentals. The bass staff contains a simple accompaniment of quarter and half notes. Above the treble staff, there are rhythmic flags and a double bar line. Measure number 52 is indicated at the top, followed by the instruction "[Teslîm]" in brackets. The system ends with a double bar line and repeat dots.

5

Musical notation for measure 5. Treble clef, key signature of two sharps (F# and C#). The melody starts with a quarter rest, followed by a quarter note F#, an eighth note G, and a quarter note A. The bass line has a whole note G. Above the staff are bracketed fingering numbers: 1, 2, 3, 4, 5, 4, 3, 2, 1.

6

Musical notation for measure 6. Treble clef, key signature of two sharps. The melody continues with an eighth note G, a quarter note A, a quarter note B, a quarter note C#, a quarter note D, a quarter note E, a quarter note F#, and a quarter note G. The bass line has a whole note G. Above the staff are bracketed fingering numbers: 1, 2, 3, 4, 5, 4, 3, 2, 1.

7

Musical notation for measure 7. Treble clef, key signature of two sharps. The melody starts with a quarter rest, followed by a quarter note F#, an eighth note G, and a quarter note A. The bass line has a whole note G. Above the staff are bracketed fingering numbers: 1, 2, 3, 4, 5, 4, 3, 2, 1. A '*' is placed above the second measure, and a '/3/' is placed above the third measure.

8

Musical notation for measure 8. Treble clef, key signature of two sharps. The melody consists of a continuous eighth-note run: G, A, B, C#, D, E, F#, G, A, B, C#, D, E, F#, G, A, B, C#. The bass line has a whole note G. Above the staff are bracketed fingering numbers: 1, 2, 3, 4, 5, 4, 3, 2, 1.

9

Musical notation for measure 9. Treble clef, key signature of two sharps. The melody starts with a quarter rest, followed by an eighth note G, a quarter note A, a quarter note B, a quarter note C#, a quarter note D, a quarter note E, a quarter note F#, and a quarter note G. The bass line has a whole note G. Above the staff are bracketed fingering numbers: 1, 2, 3, 4, 5, 4, 3, 2, 1.

10

Musical notation for measure 10. Treble clef, key signature of two sharps. The melody starts with a quarter rest, followed by a quarter note F#, an eighth note G, and a quarter note A. The bass line has a whole note G. Above the staff are bracketed fingering numbers: 1, 2, 3, 4, 5, 4, 3, 2, 1. A '/4/' is placed above the third measure.

Musical notation for measures 11-12, first system. Treble clef, key signature of two sharps (F# and C#). The melody consists of eighth and quarter notes. The bass line has a whole note chord in measure 11 and a half note in measure 12.

1. () 12

Musical notation for measures 12-13, first system. Treble clef, key signature of two sharps. Measure 12 features a sixteenth-note triplet (marked '6') and a sixteenth-note pair (marked '6'). Measure 13 ends with a repeat sign. The bass line has a whole note chord in measure 12 and a half note in measure 13.

2. () 13

Musical notation for measures 13-14, first system. Treble clef, key signature of two sharps. Measure 13 features a dotted quarter note followed by an eighth note. Measure 14 features a dotted quarter note followed by an eighth note. The bass line has a whole note chord in measure 13 and a half note in measure 14.

/5/ () 14

2. [Hâne]

Musical notation for measures 14-15, second system. Treble clef, key signature of two sharps. Measure 14 starts with a rest followed by a series of eighth notes. Measure 15 continues with eighth notes. The bass line has a whole note chord in measure 14 and a half note in measure 15.

Musical notation for measures 15-16, second system. Treble clef, key signature of two sharps. Measure 15 starts with a rest followed by eighth notes. Measure 16 continues with eighth notes. The bass line has a whole note chord in measure 15 and a half note in measure 16.

Musical notation for measures 16-17, second system. Treble clef, key signature of two sharps. Measure 16 features a dotted quarter note followed by an eighth note. Measure 17 features a dotted quarter note followed by an eighth note. The bass line has a whole note chord in measure 16 and a half note in measure 17.

/6/

17

Musical notation for measures 17-18. The system consists of a treble clef staff and a bass clef staff. The key signature is one sharp (F#). Measure 17 features a melodic line in the treble staff with eighth and sixteenth notes, and a bass line with a half note. Measure 18 continues the melodic line with a sharp sign above the staff and a bass line with a half note.

18

Musical notation for measure 18. The system consists of a treble clef staff and a bass clef staff. The key signature is one sharp (F#). Measure 18 features a melodic line in the treble staff with eighth and sixteenth notes, and a bass line with a half note.

batac

22

Musical notation for measures 22-23. The system consists of a treble clef staff and a bass clef staff. The key signature is one sharp (F#). Measure 22 features a melodic line in the treble staff with eighth and sixteenth notes, and a bass line with a half note. Measure 23 continues the melodic line with a sharp sign above the staff and a bass line with a half note.

Musical notation for measures 23-24, first system. Treble clef, key signature of two sharps (F# and C#). The melody consists of eighth and sixteenth notes. The bass line has a whole note chord in the first measure and a half note in the second.

Musical notation for measures 23-24, second system. Treble clef, key signature of two sharps. The melody continues with eighth and sixteenth notes. The bass line has a whole note chord in the first measure and a half note in the second.

1. /9/ () 25

Musical notation for measures 25-26, first system. Treble clef, key signature of two sharps. Measure 25 starts with a whole note chord in the bass line. The melody features eighth notes and a half note. Measure 26 ends with a repeat sign. A fermata is placed over the bass line chord in measure 25.

2. () 26

Musical notation for measures 25-26, second system. Treble clef, key signature of two sharps. Measure 25 starts with a whole note chord in the bass line. The melody features eighth notes and a half note. Measure 26 ends with a repeat sign. A fermata is placed over the bass line chord in measure 25. The number '6' is written below the eighth notes in both measures.

3. [Hâne]

/10/ () *

Musical notation for measures 27-28, first system. Treble clef, key signature of two sharps. Measure 27 starts with a whole note chord in the bass line. The melody begins with a quarter rest followed by eighth notes. Measure 28 ends with a repeat sign. A fermata is placed over the bass line chord in measure 27.

Musical notation for measures 27-28, second system. Treble clef, key signature of two sharps. Measure 27 starts with a whole note chord in the bass line. The melody begins with a quarter rest followed by eighth notes. Measure 28 ends with a repeat sign. A fermata is placed over the bass line chord in measure 27.

System 1: Measures 29-30. Treble clef, key signature of two sharps (F# and C#). Measure 29 starts with a rest followed by a series of eighth notes: G4, A4, B4, C#5, B4, A4, G4. Measure 30 continues with eighth notes: F#4, E4, D4, C4, B3, A3, G3. The bass line consists of whole notes: G2, C3, F#2.

System 2: Measures 30-31. Treble clef, key signature of two sharps. Measure 30 continues with eighth notes: F#4, E4, D4, C4, B3, A3, G3. Measure 31 continues with eighth notes: F#4, E4, D4, C4, B3, A3, G3. The bass line consists of whole notes: G2, C3, F#2.

System 3: Measures 31-32. Treble clef, key signature of two sharps. Measure 31 continues with eighth notes: F#4, E4, D4, C4, B3, A3, G3. Measure 32 continues with eighth notes: F#4, E4, D4, C4, B3, A3, G3. The bass line consists of whole notes: G2, C3, F#2.

System 4: Measures 32-33. Treble clef, key signature of two sharps. Measure 32 continues with eighth notes: F#4, E4, D4, C4, B3, A3, G3. Measure 33 continues with eighth notes: F#4, E4, D4, C4, B3, A3, G3. The bass line consists of whole notes: G2, C3, F#2. The word "batac" is written above the staff with a fermata symbol.

System 5: Measures 33-34. Treble clef, key signature of two sharps. Measure 33 continues with eighth notes: F#4, E4, D4, C4, B3, A3, G3. Measure 34 continues with eighth notes: F#4, E4, D4, C4, B3, A3, G3. The bass line consists of whole notes: G2, C3, F#2.

System 6: Measures 34-35. Treble clef, key signature of two sharps. Measure 34 continues with eighth notes: F#4, E4, D4, C4, B3, A3, G3. Measure 35 continues with eighth notes: F#4, E4, D4, C4, B3, A3, G3. The bass line consists of whole notes: G2, C3, F#2.

[berâber]

First system of musical notation, measures 1-4. The treble clef staff contains a melodic line with eighth and sixteenth notes, including a sharp sign on the second measure. The bass clef staff contains a simple accompaniment with quarter and eighth notes. Above the treble staff, there are rhythmic flags and a double bar line with a repeat sign at the end.

Second system of musical notation, measures 5-8. The treble clef staff continues the melodic line. The bass clef staff continues the accompaniment. Above the treble staff, there are rhythmic flags and a double bar line with a repeat sign at the end.

Third system of musical notation, measures 9-12. The treble clef staff continues the melodic line. The bass clef staff continues the accompaniment. Above the treble staff, there are rhythmic flags and a double bar line with a repeat sign at the end.

First ending, measures 13-16. The treble clef staff features a melodic line with slurs and sixteenth notes, with the number '6' written below the notes in measures 14 and 15. The bass clef staff has a long slur over the first two measures. Above the treble staff, there are rhythmic flags, a slash with the number 12, and a double bar line with a repeat sign and the number 32.

Second ending, measures 17-20. The treble clef staff features a melodic line with slurs and sixteenth notes. The bass clef staff has a long slur over the first two measures. Above the treble staff, there are rhythmic flags and a double bar line with a repeat sign and the number 33.

19 20

Musical notation for measures 19 and 20. The key signature is three sharps (F#, C#, G#). Measure 19 features a melodic line with eighth notes and a bass line with quarter notes. Measure 20 continues the melodic line with a quarter rest followed by eighth notes and a bass line with quarter notes.

21 22

Musical notation for measures 21 and 22. Measure 21 starts with a quarter rest followed by eighth notes. Measure 22 continues with eighth notes and a quarter rest. The bass line consists of quarter notes.

23 [Teslîm]

Musical notation for measures 23 and 24. Measure 23 includes a sixteenth-note triplet marked with a '6' and a repeat sign. Measure 24 is marked with a fermata and the instruction '[Teslîm]'. The bass line has a dotted quarter note in measure 23 and quarter notes in measure 24.

Musical notation for measures 25 and 26. Measure 25 features a melodic line with eighth notes and a bass line with quarter notes. Measure 26 continues with eighth notes and a quarter rest in the melody, and quarter notes in the bass.

1. * 24 2. 25

Musical notation for measures 27 and 28. Measure 27 has a first ending bracket with a repeat sign and a star symbol. Measure 28 has a second ending bracket with a repeat sign. The bass line has quarter notes.

3. [Hâne] /8/ 26

Musical notation for measures 29 and 30, labeled '3. [Hâne]'. Measure 29 starts with a quarter rest followed by eighth notes. Measure 30 continues with eighth notes. The bass line has quarter notes.

27 28

Musical notation for measures 27 and 28. The system consists of a treble clef staff and a bass clef staff. The key signature is three sharps (F#, C#, G#). Measure 27 features a melodic line in the treble staff with eighth notes and a bass line with quarter notes. Measure 28 continues the melodic line with a more active eighth-note pattern. Above measure 27, there are rhythmic flags and a double bar line with a repeat sign. Above measure 28, there are rhythmic flags and a double bar line with a repeat sign.

29 30

Musical notation for measures 29 and 30. The system consists of a treble clef staff and a bass clef staff. The key signature is three sharps. Measure 29 features a melodic line in the treble staff with eighth notes and a bass line with quarter notes. Measure 30 continues the melodic line with a more active eighth-note pattern. Above measure 29, there are rhythmic flags and a double bar line with a repeat sign. Above measure 30, there are rhythmic flags and a double bar line with a repeat sign.

* 1. 31 2. 32

Musical notation for measures 31 and 32. The system consists of a treble clef staff and a bass clef staff. The key signature is three sharps. Measure 31 features a melodic line in the treble staff with eighth notes and a bass line with quarter notes. Measure 32 continues the melodic line with a more active eighth-note pattern. Above measure 31, there is an asterisk and a first ending bracket. Above measure 32, there is a second ending bracket. Above measure 31, there are rhythmic flags and a double bar line with a repeat sign. Above measure 32, there are rhythmic flags and a double bar line with a repeat sign.

33 34

Musical notation for measures 33 and 34. The system consists of a treble clef staff and a bass clef staff. The key signature is three sharps. Measure 33 features a melodic line in the treble staff with eighth notes and a bass line with quarter notes. Measure 34 continues the melodic line with a more active eighth-note pattern. Above measure 33, there are rhythmic flags and a double bar line with a repeat sign. Above measure 34, there are rhythmic flags and a double bar line with a repeat sign.

35 36

Musical notation for measures 35 and 36. The system consists of a treble clef staff and a bass clef staff. The key signature is three sharps. Measure 35 features a melodic line in the treble staff with eighth notes and a bass line with quarter notes. Measure 36 continues the melodic line with a more active eighth-note pattern. Above measure 35, there are rhythmic flags and a double bar line with a repeat sign. Above measure 36, there are rhythmic flags and a double bar line with a repeat sign. A slur with the number 6 is placed over the last six notes of measure 36.

[Teslîm]

Musical notation for the [Teslîm] section. The system consists of a treble clef staff and a bass clef staff. The key signature is three sharps. The section begins with a double bar line and a repeat sign. The melodic line in the treble staff features eighth notes and quarter notes. The bass line features quarter notes. Above the first measure, there are rhythmic flags and a double bar line with a repeat sign. Above the second measure, there are rhythmic flags and a double bar line with a repeat sign.

17 18

16 17

/5/

Musical notation for measures 16 and 17. Measure 16 starts with a treble clef, a key signature of one sharp (F#), and a common time signature. The melody begins with a quarter rest, followed by an eighth-note pair (G4, A4), a quarter note (B4), and a half note (C5). The bass line consists of a half note (G3) and a half note (B2). Measure 17 continues the melody with eighth-note pairs (D5, C5), (B4, A4), (G4, F#4), and (E4, D4). The bass line continues with a half note (C4) and a half note (B3).

18 19

Musical notation for measures 18 and 19. Measure 18 features a more active melody with eighth-note pairs (D4, C4), (B3, A3), (G3, F#3), and (E3, D3). The bass line has a half note (A2) and a half note (G2). Measure 19 continues with eighth-note pairs (D3, C3), (B2, A2), (G2, F#2), and (E2, D2). The bass line continues with a half note (C2) and a half note (B1).

20 21

/6/

Musical notation for measures 20 and 21. Measure 20 starts with a treble clef, a key signature of one sharp (F#), and a common time signature. The melody begins with a quarter rest, followed by an eighth-note pair (G4, A4), a quarter note (B4), and a half note (C5). The bass line consists of a half note (G3) and a half note (B2). Measure 21 continues the melody with eighth-note pairs (D5, C5), (B4, A4), (G4, F#4), and (E4, D4). The bass line continues with a half note (C4) and a half note (B3).

[Teslîm]

Musical notation for measures 20 and 21, marked with a double bar line and a repeat sign. The melody begins with a quarter rest, followed by an eighth-note pair (G4, A4), a quarter note (B4), and a half note (C5). The bass line consists of a half note (G3) and a half note (B2). Measure 21 continues the melody with eighth-note pairs (D5, C5), (B4, A4), (G4, F#4), and (E4, D4). The bass line continues with a half note (C4) and a half note (B3).

Musical notation for measures 20 and 21. Measure 20 features a more active melody with eighth-note pairs (D4, C4), (B3, A3), (G3, F#3), and (E3, D3). The bass line has a half note (A2) and a half note (G2). Measure 21 continues with eighth-note pairs (D3, C3), (B2, A2), (G2, F#2), and (E2, D2). The bass line continues with a half note (C2) and a half note (B1).

1. 22 2. 23

Musical notation for measures 22 and 23. Measure 22 starts with a treble clef, a key signature of one sharp (F#), and a common time signature. The melody begins with an eighth-note pair (G4, A4), a quarter note (B4), and a half note (C5). The bass line consists of a half note (G3) and a half note (B2). Measure 23 continues the melody with eighth-note pairs (D5, C5), (B4, A4), (G4, F#4), and (E4, D4). The bass line continues with a half note (C4) and a half note (B3).

3. [Hâne]

24

Musical notation for measures 24-25. The system includes a treble clef staff and a bass clef staff. Measure 24 starts with a treble clef staff containing a whole note G4 with a sharp sign, followed by eighth notes A4, B4, C5, D5, E5, F5, G5. The bass clef staff has a whole note G3. Measure 25 continues the treble staff with eighth notes G5, F5, E5, D5, C5, B4, A4. The bass clef staff has a whole note G3.

25

Musical notation for measures 25-26. The system includes a treble clef staff and a bass clef staff. Measure 25 continues the treble staff with eighth notes G5, F5, E5, D5, C5, B4, A4. The bass clef staff has a whole note G3. Measure 26 continues the treble staff with eighth notes G5, F5, E5, D5, C5, B4, A4. The bass clef staff has a whole note G3.

26

27

Musical notation for measures 26-27. The system includes a treble clef staff and a bass clef staff. Measure 26 continues the treble staff with eighth notes G5, F5, E5, D5, C5, B4, A4. The bass clef staff has a whole note G3. Measure 27 continues the treble staff with eighth notes G5, F5, E5, D5, C5, B4, A4. The bass clef staff has a whole note G3.

28

29

Musical notation for measures 28-29. The system includes a treble clef staff and a bass clef staff. Measure 28 starts with a treble clef staff containing a whole note G4 with a sharp sign, followed by eighth notes A4, B4, C5, D5, E5, F5, G5. The bass clef staff has a whole note G3. Measure 29 continues the treble staff with eighth notes G5, F5, E5, D5, C5, B4, A4. The bass clef staff has a whole note G3.

30

31

Musical notation for measures 30-31. The system includes a treble clef staff and a bass clef staff. Measure 30 continues the treble staff with eighth notes G5, F5, E5, D5, C5, B4, A4. The bass clef staff has a whole note G3. Measure 31 continues the treble staff with eighth notes G5, F5, E5, D5, C5, B4, A4. The bass clef staff has a whole note G3.

32

33

Musical notation for measures 32-33. The system includes a treble clef staff and a bass clef staff. Measure 32 continues the treble staff with eighth notes G5, F5, E5, D5, C5, B4, A4. The bass clef staff has a whole note G3. Measure 33 continues the treble staff with eighth notes G5, F5, E5, D5, C5, B4, A4. The bass clef staff has a whole note G3.

Musical notation for measures 34-35, first system. The top staff is a treble clef with a melodic line. The bottom staff is a bass clef with a bass line. Measure 34 is marked with a '34' above the staff. Measure 35 is marked with a '35' above the staff. A fermata is placed over measure 35. Above measure 35, there is a symbol consisting of a horizontal line with a vertical line through it, followed by a slash and the number 10, and another horizontal line with a vertical line through it.

[Teslîm]

Musical notation for measures 34-35, second system. The top staff is a treble clef with a melodic line. The bottom staff is a bass clef with a bass line. Measure 34 is marked with a '34' above the staff. Measure 35 is marked with a '35' above the staff. A fermata is placed over measure 35. Above measure 35, there is a symbol consisting of a horizontal line with a vertical line through it, followed by a slash and the number 10, and another horizontal line with a vertical line through it.

Musical notation for measures 36-37, first system. The top staff is a treble clef with a melodic line. The bottom staff is a bass clef with a bass line. Measure 36 is marked with a '36' above the staff. Measure 37 is marked with a '37' above the staff. A fermata is placed over measure 37. Above measure 37, there is a symbol consisting of a horizontal line with a vertical line through it, followed by a slash and the number 10, and another horizontal line with a vertical line through it.

Musical notation for measures 36-37, second system. The top staff is a treble clef with a melodic line. The bottom staff is a bass clef with a bass line. Measure 36 is marked with a '36' above the staff. Measure 37 is marked with a '37' above the staff. A fermata is placed over measure 37. Above measure 37, there is a symbol consisting of a horizontal line with a vertical line through it, followed by a slash and the number 10, and another horizontal line with a vertical line through it.

/11/

4. [Hâne]

Musical notation for measures 38-39, first system. The top staff is a treble clef with a melodic line. The bottom staff is a bass clef with a bass line. Measure 38 is marked with a '38' above the staff. Measure 39 is marked with a '39' above the staff. A fermata is placed over measure 39. Above measure 39, there is a symbol consisting of a horizontal line with a vertical line through it, followed by a slash and the number 10, and another horizontal line with a vertical line through it.

Musical notation for measures 38-39, second system. The top staff is a treble clef with a melodic line. The bottom staff is a bass clef with a bass line. Measure 38 is marked with a '38' above the staff. Measure 39 is marked with a '39' above the staff. A fermata is placed over measure 39. Above measure 39, there is a symbol consisting of a horizontal line with a vertical line through it, followed by a slash and the number 10, and another horizontal line with a vertical line through it.

40 41

Musical score for measures 40-41. The system includes a treble clef staff with a key signature of one flat and a common time signature. The bass staff shows a simple harmonic accompaniment. Measure 40 features a melodic line with eighth and sixteenth notes. Measure 41 continues the melodic development. Above the staff, there are rhythmic diagrams consisting of vertical lines and flags, and a time signature change to 12/8 is indicated between measures 40 and 41.

42 43

Musical score for measures 42-43. The system includes a treble clef staff with a key signature of one flat and a common time signature. The bass staff shows a simple harmonic accompaniment. Measure 42 features a melodic line with eighth and sixteenth notes. Measure 43 continues the melodic development. Above the staff, there are rhythmic diagrams consisting of vertical lines and flags.

44 * 45

Musical score for measures 44-45. The system includes a treble clef staff with a key signature of one flat and a common time signature. The bass staff shows a simple harmonic accompaniment. Measure 44 features a melodic line with eighth and sixteenth notes, including a sixteenth-note triplet marked with a '6'. Measure 45 continues the melodic development. Above the staff, there are rhythmic diagrams consisting of vertical lines and flags, and a time signature change to 13/8 is indicated between measures 44 and 45.

46 47

Musical score for measures 46-47. The system includes a treble clef staff with a key signature of one flat and a common time signature. The bass staff shows a simple harmonic accompaniment. Measure 46 features a melodic line with eighth and sixteenth notes. Measure 47 continues the melodic development. Above the staff, there are rhythmic diagrams consisting of vertical lines and flags.

48

Musical score for measure 48. The system includes a treble clef staff with a key signature of one flat and a common time signature. The bass staff shows a simple harmonic accompaniment. Measure 48 features a melodic line with eighth and sixteenth notes. Above the staff, there are rhythmic diagrams consisting of vertical lines and flags, and a time signature change to 14/8 is indicated before measure 48.

49

Musical score for measure 49. The system includes a treble clef staff with a key signature of one flat and a common time signature. The bass staff shows a simple harmonic accompaniment. Measure 49 features a melodic line with eighth and sixteenth notes, including three sixteenth-note triplets marked with a '6'. Above the staff, there are rhythmic diagrams consisting of vertical lines and flags.

[Teslîm]

50 51

This system contains measures 50 and 51. Measure 50 begins with a treble clef, a key signature of one sharp (F#), and a common time signature. The melody starts with a quarter rest, followed by a series of eighth and sixteenth notes. The bass line consists of a single half note. Measure 51 continues the melodic line with similar rhythmic patterns. Above the staff, there are rhythmic flags and a double bar line with repeat dots. A double bar line with repeat dots is also present at the end of measure 51.

52

This system contains measures 52 and 53. Measure 52 features a more active melody with eighth and sixteenth notes. The bass line has a half note. Measure 53 continues the melodic development. Above the staff, there are rhythmic flags and a double bar line with repeat dots. A double bar line with repeat dots is also present at the end of measure 53.

1. 53 2. 54

(())

This system contains measures 53 and 54. Measure 53 is the first ending, marked with a first ending bracket and a double bar line with repeat dots. Measure 54 is the second ending, also marked with a second ending bracket and a double bar line with repeat dots. Above the staff, there are rhythmic flags and a double bar line with repeat dots. A double bar line with repeat dots is also present at the end of measure 54.

/2/

Musical notation system 1, measures 7-8. Includes a treble clef, a bass clef, and a double bar line. Measure numbers 7 and 8 are indicated above the staff.

Musical notation system 2, measures 9-10. Includes a treble clef, a bass clef, and a double bar line. Measure numbers 9 and 10 are indicated above the staff.

Musical notation system 3, measures 11-12. Includes a treble clef, a bass clef, and a double bar line. Measure numbers 11 and 12 are indicated above the staff.

Musical notation system 4, measures 13-14. Includes a treble clef, a bass clef, and a double bar line. Measure numbers 13 and 14 are indicated above the staff. First and second endings are marked with '1.' and '2.'.

Musical notation system 5, measures 15-16. Includes a treble clef, a bass clef, and a double bar line. Measure numbers 15 and 16 are indicated above the staff. The section is labeled '2. [Hâne]'.

Musical notation system 6, measures 17-18. Includes a treble clef, a bass clef, and a double bar line. Measure numbers 17 and 18 are indicated above the staff.

16 17

Musical notation for measures 16 and 17. The system consists of a treble clef staff and a bass clef staff. Measure 16 features a melodic line in the treble staff with eighth and sixteenth notes, and a bass line with a half note. Measure 17 continues the melodic line with eighth notes and a quarter note, while the bass line has a half note. Above the treble staff, there are rhythmic flags and a double bar line with a repeat sign.

18 /5/ 19

Musical notation for measures 18 and 19. The system consists of a treble clef staff and a bass clef staff. Measure 18 features a melodic line in the treble staff with eighth notes, and a bass line with a half note. Measure 19 continues the melodic line with eighth notes and a quarter note, while the bass line has a half note. Above the treble staff, there are rhythmic flags and a double bar line with a repeat sign.

20 21

Musical notation for measures 20 and 21. The system consists of a treble clef staff and a bass clef staff. Measure 20 features a melodic line in the treble staff with eighth notes, and a bass line with a half note. Measure 21 continues the melodic line with eighth notes and a quarter note, while the bass line has a half note. Above the treble staff, there are rhythmic flags and a double bar line with a repeat sign.

22 /6/ 23

Musical notation for measures 22 and 23. The system consists of a treble clef staff and a bass clef staff. Measure 22 features a melodic line in the treble staff with eighth notes, and a bass line with a half note. Measure 23 continues the melodic line with eighth notes and a quarter note, while the bass line has a half note. Above the treble staff, there are rhythmic flags and a double bar line with a repeat sign.

24 1.

Musical notation for measures 24 and 25, first ending. The system consists of a treble clef staff and a bass clef staff. Measure 24 features a melodic line in the treble staff with eighth notes, and a bass line with a half note. Measure 25 continues the melodic line with eighth notes and a quarter note, while the bass line has a half note. Above the treble staff, there are rhythmic flags and a double bar line with a repeat sign.

2. 25

Musical notation for measures 24 and 25, second ending. The system consists of a treble clef staff and a bass clef staff. Measure 24 features a melodic line in the treble staff with eighth notes, and a bass line with a half note. Measure 25 continues the melodic line with eighth notes and a quarter note, while the bass line has a half note. Above the treble staff, there are rhythmic flags and a double bar line with a repeat sign.

26 27

Musical notation for measures 26 and 27. The system consists of a treble clef staff and a bass clef staff. Measure 26 features a melodic line in the treble staff with eighth notes and a half note, and a bass line with a whole note. Measure 27 continues the melodic line with eighth notes and a half note, and the bass line with a whole note. Above the treble staff, there are rhythmic flags and a diamond symbol with a dot. Above the bass staff, there are rhythmic flags. Measure 27 ends with a double bar line and a diamond symbol with a dot.

28 29

Musical notation for measures 28 and 29. The system consists of a treble clef staff and a bass clef staff. Measure 28 features a melodic line in the treble staff with eighth notes and a half note, and a bass line with a whole note. Measure 29 continues the melodic line with eighth notes and a half note, and the bass line with a whole note. Above the treble staff, there are rhythmic flags and a diamond symbol with a dot. Above the bass staff, there are rhythmic flags. Measure 29 ends with a double bar line and a diamond symbol with a dot.

30 31

Musical notation for measures 30 and 31. The system consists of a treble clef staff and a bass clef staff. Measure 30 features a melodic line in the treble staff with eighth notes and a half note, and a bass line with a whole note. Measure 31 continues the melodic line with eighth notes and a half note, and the bass line with a whole note. Above the treble staff, there are rhythmic flags and a diamond symbol with a dot. Above the bass staff, there are rhythmic flags. Measure 31 ends with a double bar line and a diamond symbol with a dot.

32 33

Musical notation for measures 32 and 33. The system consists of a treble clef staff and a bass clef staff. Measure 32 features a melodic line in the treble staff with eighth notes and a half note, and a bass line with a whole note. Measure 33 continues the melodic line with eighth notes and a half note, and the bass line with a whole note. Above the treble staff, there are rhythmic flags and a diamond symbol with a dot. Above the bass staff, there are rhythmic flags. Measure 33 ends with a double bar line and a diamond symbol with a dot.

[Teslîm] 34 35

Musical notation for measures 34 and 35. The system consists of a treble clef staff and a bass clef staff. Measure 34 features a melodic line in the treble staff with eighth notes and a half note, and a bass line with a whole note. Measure 35 continues the melodic line with eighth notes and a half note, and the bass line with a whole note. Above the treble staff, there are rhythmic flags and a diamond symbol with a dot. Above the bass staff, there are rhythmic flags. Measure 35 ends with a double bar line and a diamond symbol with a dot.

36 37

Musical notation for measures 36 and 37. The system consists of a treble clef staff and a bass clef staff. Measure 36 features a melodic line in the treble staff with eighth notes and a half note, and a bass line with a whole note. Measure 37 continues the melodic line with eighth notes and a half note, and the bass line with a whole note. Above the treble staff, there are rhythmic flags and a diamond symbol with a dot. Above the bass staff, there are rhythmic flags. Measure 37 ends with a double bar line and a diamond symbol with a dot.

3. [Hâne]

/10/ 38 39

Musical notation for measures 38 and 39. The upper staff is in treble clef with a key signature of one flat (B-flat). The lower staff is in bass clef. Measure 38 contains a melodic line in the upper staff and a bass line in the lower staff. Measure 39 continues the melodic line and bass line. Above measure 38, there are rhythmic flags and a double bar line with a repeat sign. Above measure 39, there are rhythmic flags and a double bar line with a repeat sign.

40 41

Musical notation for measures 40 and 41. The upper staff is in treble clef with a key signature of one flat. The lower staff is in bass clef. Measure 40 contains a melodic line in the upper staff and a bass line in the lower staff. Measure 41 continues the melodic line and bass line. Above measure 40, there are rhythmic flags and a double bar line with a repeat sign. Above measure 41, there are rhythmic flags and a double bar line with a repeat sign.

/11/ 42 43

Musical notation for measures 42 and 43. The upper staff is in treble clef with a key signature of one flat. The lower staff is in bass clef. Measure 42 contains a melodic line in the upper staff and a bass line in the lower staff. Measure 43 continues the melodic line and bass line. Above measure 42, there are rhythmic flags and a double bar line with a repeat sign. Above measure 43, there are rhythmic flags and a double bar line with a repeat sign.

44 45

Musical notation for measures 44 and 45. The upper staff is in treble clef with a key signature of one flat. The lower staff is in bass clef. Measure 44 contains a melodic line in the upper staff and a bass line in the lower staff. Measure 45 continues the melodic line and bass line. Above measure 44, there are rhythmic flags and a double bar line with a repeat sign. Above measure 45, there are rhythmic flags and a double bar line with a repeat sign.

[Teslîm]

Musical notation for measures 46 and 47. The upper staff is in treble clef with a key signature of one flat. The lower staff is in bass clef. Measure 46 contains a melodic line in the upper staff and a bass line in the lower staff. Measure 47 continues the melodic line and bass line. Above measure 46, there are rhythmic flags and a double bar line with a repeat sign. Above measure 47, there are rhythmic flags and a double bar line with a repeat sign.

Musical notation for measures 48 and 49. The upper staff is in treble clef with a key signature of one flat. The lower staff is in bass clef. Measure 48 contains a melodic line in the upper staff and a bass line in the lower staff. Measure 49 continues the melodic line and bass line. Above measure 48, there are rhythmic flags and a double bar line with a repeat sign. Above measure 49, there are rhythmic flags and a double bar line with a repeat sign.

4. [Hâne]

/12/ 46 47

Musical notation for measures 46 and 47. The upper staff is in treble clef with a key signature of one flat. The lower staff is in bass clef. Measure 46 contains a melodic line with eighth and sixteenth notes, and a bass line with a half note. Measure 47 continues the melodic line and ends with a double bar line.

48 49 50

Musical notation for measures 48, 49, and 50. Measure 48 features a melodic line with eighth notes and a bass line with a half note. Measure 49 is a first ending, marked with a '1.' and a repeat sign. Measure 50 is a second ending, marked with a '2.' and a repeat sign. Both endings lead to a double bar line.

/13/ 51 52

Musical notation for measures 51 and 52. Measure 51 has a melodic line with eighth notes and a bass line with a half note. Measure 52 continues the melodic line and ends with a double bar line.

[Teslîm]

Musical notation for the [Teslîm] section. The upper staff begins with a treble clef and a key signature of one flat. The lower staff is in bass clef. The section consists of a melodic line with eighth notes and a bass line with a half note, ending with a double bar line.

Musical notation for the final section. The upper staff is in treble clef with a key signature of one flat. The lower staff is in bass clef. The section consists of a melodic line with eighth notes and a bass line with a half note, ending with a double bar line.

Musical notation for measures 27 and 28. The system consists of a treble clef staff and a bass clef staff. Measure 27 features a melodic line in the treble staff with eighth notes and a bass line with quarter notes. Measure 28 continues the melodic line with eighth notes and the bass line with quarter notes. Above the treble staff, there are rhythmic flags and a double bar line with a repeat sign.

29 [Taslîm]

Musical notation for measures 29 and 30. The system consists of a treble clef staff and a bass clef staff. Measure 29 features a melodic line in the treble staff with eighth notes and a bass line with quarter notes. Measure 30 continues the melodic line with eighth notes and the bass line with quarter notes. Above the treble staff, there are rhythmic flags and a double bar line with a repeat sign. The text "[Taslîm]" is written above the treble staff at the beginning of measure 30.

Musical notation for the first system, measures 27-30. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with eighth and sixteenth notes, and a repeat sign at the end. The bass staff contains a bass line with quarter and eighth notes. Above the treble staff, there are rhythmic flags and a double bar line with a repeat sign.

1. (30) 2. (31)

Musical notation for the second system, measures 30-31. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with eighth and sixteenth notes, and a repeat sign at the end. The bass staff contains a bass line with quarter and eighth notes. Above the treble staff, there are rhythmic flags and a double bar line with a repeat sign.

3. [Hâne] /10/ 32

Musical notation for the third system, measures 32-35. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with eighth and sixteenth notes, and a repeat sign at the end. The bass staff contains a bass line with quarter and eighth notes. Above the treble staff, there are rhythmic flags and a double bar line with a repeat sign.

33 34

Musical notation for the fourth system, measures 34-37. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with eighth and sixteenth notes, and a repeat sign at the end. The bass staff contains a bass line with quarter and eighth notes. Above the treble staff, there are rhythmic flags and a double bar line with a repeat sign.

35 /11/ 36

Musical notation for the fifth system, measures 36-39. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with eighth and sixteenth notes, and a repeat sign at the end. The bass staff contains a bass line with quarter and eighth notes. Above the treble staff, there are rhythmic flags and a double bar line with a repeat sign.

37 38

Musical notation for the sixth system, measures 38-41. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with eighth and sixteenth notes, and a repeat sign at the end. The bass staff contains a bass line with quarter and eighth notes. Above the treble staff, there are rhythmic flags and a double bar line with a repeat sign.

19

Musical notation for measures 19-20. The upper staff is in treble clef with a key signature of one flat and a 6/8 time signature. The lower staff is in bass clef. Measure 19 contains a melodic line of eighth notes in the upper staff and a bass line of quarter notes in the lower staff. Measure 20 continues the melodic line with a trill on the final note and a quarter rest in the lower staff.

20

21

Musical notation for measures 21-22. Measure 21 continues the melodic line with a trill on the final note and a quarter rest in the lower staff. Measure 22 continues the melodic line with a trill on the final note and a quarter rest in the lower staff.

22

23

Musical notation for measures 23-24. Measure 23 continues the melodic line with a trill on the final note and a quarter rest in the lower staff. Measure 24 continues the melodic line with a trill on the final note and a quarter rest in the lower staff.

24

25

Musical notation for measures 25-26. Measure 25 continues the melodic line with a trill on the final note and a quarter rest in the lower staff. Measure 26 continues the melodic line with a trill on the final note and a quarter rest in the lower staff.

26

27

Musical notation for measures 27-28. Measure 27 continues the melodic line with a trill on the final note and a quarter rest in the lower staff. Measure 28 continues the melodic line with a trill on the final note and a quarter rest in the lower staff.

[Teslîm]

Musical notation for measures 29-30. Measure 29 continues the melodic line with a trill on the final note and a quarter rest in the lower staff. Measure 30 continues the melodic line with a trill on the final note and a quarter rest in the lower staff.

First system of musical notation, measures 1-4. The upper staff is in treble clef with a key signature of one flat (B-flat). The lower staff is in bass clef. The music consists of eighth-note patterns in the upper staff and quarter notes in the lower staff.

Second system of musical notation, measures 5-8. The upper staff continues with eighth-note patterns, including some beamed sixteenth notes. The lower staff continues with quarter notes.

Third system of musical notation, measures 9-12. The upper staff features eighth-note patterns with some slurs. The lower staff continues with quarter notes.

Fourth system of musical notation, measures 13-16. It includes first and second endings. Measure 13 is marked '1.' and measure 16 is marked '2.'. Measure 14 is marked '28' and measure 15 is marked '29'. The upper staff has eighth-note patterns, and the lower staff has quarter notes.

Fifth system of musical notation, measures 17-20. Measure 17 is marked '30'. The section is titled '3. [Hâne]'. The upper staff has eighth-note patterns, and the lower staff has quarter notes.

Sixth system of musical notation, measures 21-24. Measure 21 is marked '31' and measure 24 is marked '32'. The upper staff has eighth-note patterns, and the lower staff has quarter notes.

33 /10/ 34

35 36

1. 37 2. 38

() /11/ ()

[Teslîm]

Musical notation for the first system, measures 37-38. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with eighth and sixteenth notes, and a fermata over the final note. The bass staff contains a simple harmonic accompaniment with quarter and half notes.

Musical notation for the second system, measures 39-41. It features a first ending bracketed section (measures 39-40) and a second ending bracketed section (measures 40-41). The first ending concludes with a repeat sign and a double bar line. The second ending concludes with a repeat sign and a double bar line. The notation includes treble and bass staves with various rhythmic values and accidentals.

4. [Hâne] Musical notation for the third system, measure 42. The system is titled "4. [Hâne]". It consists of a treble clef staff and a bass clef staff. The treble staff has a melodic line with eighth notes and a fermata. The bass staff has a simple accompaniment. A measure rest is present at the beginning of the system.

Musical notation for the fourth system, measures 43-44. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with eighth notes and a fermata. The bass staff contains a simple accompaniment with quarter notes.

Musical notation for the fifth system, measures 45-46. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with eighth notes and a fermata. The bass staff contains a simple accompaniment with quarter notes.

Musical notation for the sixth system, measures 47-48. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with eighth notes and a fermata. The bass staff contains a simple accompaniment with quarter notes.

1. (♮ ♮ ♮ ♮ /14/ ♮ ♮ ♮ ♮ 46) 2. (♮ ♮ ♮ ♮ ♮ ♮ ♮ ♮ 47)

Musical notation for the first system, measures 46-47. It consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with eighth and sixteenth notes, and a repeat sign. The bass staff contains a simple harmonic accompaniment of quarter notes.

[Teslîm]

Musical notation for the second system, measures 48-49. It features a treble clef staff with a melodic line starting with a fermata and a 'Teslîm' marking. The bass staff continues with the harmonic accompaniment.

Musical notation for the third system, measures 50-51. The treble staff shows a more complex melodic line with sixteenth notes and a fermata. The bass staff accompaniment remains consistent.

Musical notation for the fourth system, measures 52-53. The treble staff continues with the melodic development, including a fermata. The bass staff accompaniment is shown.

48

Musical notation for the fifth system, measures 54-55. The treble staff features a melodic line with a fermata. The bass staff accompaniment is shown.

1. (♮ ♮ ♮ ♮ ♮ ♮ ♮ ♮) 2. (♮ ♮ ♮ ♮ ♮ ♮ ♮ ♮)

Musical notation for the sixth system, measures 56-57. It shows a treble clef staff with a melodic line and a bass clef staff with accompaniment. The system concludes with a double bar line.

19

Musical notation for measures 19 and 20. The top staff is in treble clef with a key signature of one sharp (F#). The bottom staff is in bass clef. Measure 19 contains a melodic line in the treble and a bass line with a whole note. Measure 20 continues the melodic line and the bass line.

21 [Tesiim]

Musical notation for measures 21 and 22. Measure 21 features a melodic line in the treble and a bass line with a whole note. A fermata is placed over the first measure. Measure 22 is marked with a double bar line and a repeat sign. The section is labeled "[Tesiim]".

Musical notation for measures 23 and 24. The top staff continues the melodic line, and the bottom staff continues the bass line. Measure 24 ends with a double bar line and repeat dots.

1. 22 2. 23

Musical notation for measures 22 and 23, showing two first endings. The first ending (1.) leads to measure 22, and the second ending (2.) leads to measure 23. Both endings feature melodic lines in the treble and bass lines with whole notes.

3. [Hâne] 24

Musical notation for measure 24, labeled "3. [Hâne]". The top staff shows a melodic line starting with an eighth rest, and the bottom staff shows a bass line with a whole note.

25 26

Musical notation for measures 25 and 26. The top staff continues the melodic line, and the bottom staff continues the bass line. Measure 26 ends with a double bar line and repeat dots.

27 28

Musical notation for measures 27 and 28. The system consists of a treble clef staff and a bass clef staff. Measure 27 features a treble staff with a sequence of eighth notes and a bass staff with a whole note chord. Measure 28 continues the treble staff melody and has a whole note chord in the bass staff. Above the treble staff, there are rhythmic flags and a slash with the number 9, indicating a specific rhythmic pattern.

29 30

Musical notation for measures 29 and 30. The system consists of a treble clef staff and a bass clef staff. Measure 29 features a treble staff with a sequence of eighth notes and a bass staff with a whole note chord. Measure 30 continues the treble staff melody and has a whole note chord in the bass staff. Above the treble staff, there are rhythmic flags and a slash with the number 9, indicating a specific rhythmic pattern.

1. 31 2. 32

(/10/)

Musical notation for measures 31 and 32, presented as a first and second ending. The system consists of a treble clef staff and a bass clef staff. Measure 31 features a treble staff with a sequence of eighth notes and a bass staff with a whole note chord. Measure 32 continues the treble staff melody and has a whole note chord in the bass staff. Above the treble staff, there are rhythmic flags and a slash with the number 10, indicating a specific rhythmic pattern.

33 34

/11/

Musical notation for measures 33 and 34. The system consists of a treble clef staff and a bass clef staff. Measure 33 features a treble staff with a sequence of eighth notes and a bass staff with a whole note chord. Measure 34 continues the treble staff melody and has a whole note chord in the bass staff. Above the treble staff, there are rhythmic flags and a slash with the number 11, indicating a specific rhythmic pattern.

35 36

Musical notation for measures 35 and 36. The system consists of a treble clef staff and a bass clef staff. Measure 35 features a treble staff with a sequence of eighth notes and a bass staff with a whole note chord. Measure 36 continues the treble staff melody and has a whole note chord in the bass staff. Above the treble staff, there are rhythmic flags and a slash with the number 11, indicating a specific rhythmic pattern.

37 38

/12/

Musical notation for measures 37 and 38. The system consists of a treble clef staff and a bass clef staff. Measure 37 features a treble staff with a sequence of eighth notes and a bass staff with a whole note chord. Measure 38 continues the treble staff melody and has a whole note chord in the bass staff. Above the treble staff, there are rhythmic flags and a slash with the number 12, indicating a specific rhythmic pattern.

49

Musical notation for measures 49-50. Measure 49 has a circled chord symbol above it. Measure 50 has a circled chord symbol above it. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with eighth and quarter notes, and the bass staff contains a bass line with quarter and half notes.

51

Musical notation for measures 51-52. Measure 51 has a circled chord symbol above it. Measure 52 has a circled chord symbol above it. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with eighth and quarter notes, and the bass staff contains a bass line with quarter and half notes.

53

Musical notation for measures 53-54. Measure 53 has a circled chord symbol above it. Measure 54 has a circled chord symbol above it. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with eighth and quarter notes, and the bass staff contains a bass line with quarter and half notes.

55 56

Musical notation for measures 55 and 56. The system consists of a treble clef staff and a bass clef staff. Measure 55 features a treble staff with a melodic line starting on a whole note G4, followed by eighth notes. The bass staff has a whole note chord of G2-B2-D3. Measure 56 continues the melodic line in the treble staff, while the bass staff has a whole note chord of G2-B2-D3.

57 58

Musical notation for measures 57 and 58. Measure 57 has a treble staff with a melodic line of eighth notes and a bass staff with a whole note chord of G2-B2-D3. Measure 58 continues the melodic line in the treble staff, while the bass staff has a whole note chord of G2-B2-D3.

59 [Teslím]

Musical notation for measures 59 and 60. Measure 59 has a treble staff with a melodic line and a bass staff with a whole note chord of G2-B2-D3. Measure 60 is marked with a double bar line and repeat dots. A section labeled "[Teslím]" begins in measure 60, indicated by a scissor symbol. The treble staff continues with a melodic line, and the bass staff has a whole note chord of G2-B2-D3.

Musical notation for measures 60 and 61. Measure 60 continues the melodic line in the treble staff and the whole note chord in the bass staff. Measure 61 continues the melodic line in the treble staff and the whole note chord in the bass staff.

1. 60 2. 61

() (/6/)

First and second endings for measures 60 and 61. The first ending (1.) is marked with a double bar line and repeat dots. The second ending (2.) is marked with a double bar line and repeat dots. The notation includes a slash and the number 6 in the second ending.

Musical notation for measures 60 and 61. Measure 60 has a treble staff with a melodic line and a bass staff with a whole note chord of G2-B2-D3. Measure 61 continues the melodic line in the treble staff and the whole note chord in the bass staff.

Measure 27 contains a melodic line in the upper staff and a bass line in the lower staff. Measure 28 continues the melodic line with a B-flat and the bass line.

17/ 29 30

Musical notation for measures 29 and 30. The upper staff is in treble clef with a key signature of one flat. The lower staff is in bass clef. Measure 29 contains a melodic line in the upper staff and a bass line. Measure 30 continues the melodic line with a B-flat and the bass line.

31 [Teslîm]

Musical notation for measure 31. The upper staff is in treble clef with a key signature of one flat. The lower staff is in bass clef. Measure 31 contains a melodic line in the upper staff and a bass line. The measure is marked with a double bar line and a repeat sign, and is labeled "[Teslîm]".

Musical notation for measures 32 and 33. The upper staff is in treble clef with a key signature of one flat. The lower staff is in bass clef. Measure 32 contains a melodic line in the upper staff and a bass line. Measure 33 continues the melodic line with a B-flat and the bass line.

1. 32 2. 33

Musical notation for measures 32 and 33, showing first and second endings. The upper staff is in treble clef with a key signature of one flat. The lower staff is in bass clef. Measure 32 contains a melodic line in the upper staff and a bass line. Measure 33 continues the melodic line with a B-flat and the bass line. The first ending is marked "1." and the second ending is marked "2.". The first ending ends with a double bar line and a repeat sign, and the second ending ends with a double bar line and a repeat sign.

4. [Hâne] 34

Musical notation for measure 34. The upper staff is in treble clef with a key signature of one flat. The lower staff is in bass clef. Measure 34 contains a melodic line in the upper staff and a bass line. The measure is labeled "4. [Hâne]".

35 36

Musical notation for measures 35 and 36. The system consists of a treble clef staff and a bass clef staff. Measure 35 contains a melodic line in the treble staff and a bass line in the bass staff. Measure 36 continues the melody and bass line. Above the treble staff, there are rhythmic flags and a double bar line with repeat dots.

/9/ 37 38

Musical notation for measures 37 and 38. The system consists of a treble clef staff and a bass clef staff. Measure 37 contains a melodic line in the treble staff and a bass line in the bass staff. Measure 38 continues the melody and bass line. Above the treble staff, there are rhythmic flags and a double bar line with repeat dots.

/10/ 39 40

Musical notation for measures 39 and 40. The system consists of a treble clef staff and a bass clef staff. Measure 39 contains a melodic line in the treble staff and a bass line in the bass staff. Measure 40 continues the melody and bass line. Above the treble staff, there are rhythmic flags and a double bar line with repeat dots.

41 [Teslîm]

Musical notation for measures 41 and 42. The system consists of a treble clef staff and a bass clef staff. Measure 41 contains a melodic line in the treble staff and a bass line in the bass staff. Measure 42 continues the melody and bass line. Above the treble staff, there are rhythmic flags and a double bar line with repeat dots. The text "[Teslîm]" is written above the treble staff.

Musical notation for measures 43 and 44. The system consists of a treble clef staff and a bass clef staff. Measure 43 contains a melodic line in the treble staff and a bass line in the bass staff. Measure 44 continues the melody and bass line. Above the treble staff, there are rhythmic flags and a double bar line with repeat dots.

1. 42 2. 43

Musical notation for measures 42 and 43. The system consists of a treble clef staff and a bass clef staff. Measure 42 contains a melodic line in the treble staff and a bass line in the bass staff. Measure 43 continues the melody and bass line. Above the treble staff, there are rhythmic flags and a double bar line with repeat dots. The text "1. 42" and "2. 43" are written above the treble staff.

5. [Hâne]

/11/ 44 45

Musical notation for measures 11-15. The upper staff is in treble clef with a key signature of one sharp (F#). The lower staff is in bass clef. Measure 11 is marked with a repeat sign. The notation includes eighth and sixteenth notes in the upper staff and quarter notes in the lower staff.

46 47

Musical notation for measures 16-20. The notation continues with eighth and sixteenth notes in the upper staff and quarter notes in the lower staff.

/12/ 48 49

Musical notation for measures 21-25. Measure 21 is marked with a repeat sign. The notation includes eighth and sixteenth notes in the upper staff and quarter notes in the lower staff.

50 * 51 52

Musical notation for measures 26-30. Measure 26 is marked with a repeat sign. A star symbol (*) is placed above measure 27. The notation includes eighth and sixteenth notes in the upper staff and quarter notes in the lower staff.

/13/ 53 54

Musical notation for measures 31-35. The notation includes eighth and sixteenth notes in the upper staff and quarter notes in the lower staff.

1. 55 2. 56

Musical notation for measures 36-40. Measures 36 and 37 are marked with first and second endings. The notation includes eighth and sixteenth notes in the upper staff and quarter notes in the lower staff.

/7/ 21 22

The first system of exercise 3 consists of two staves. The upper staff is in treble clef with a key signature of one sharp (F#) and a common time signature. It contains a melodic line with eighth and sixteenth notes, including a triplet of eighth notes in measure 19. The lower staff is in bass clef and contains a bass line with whole and half notes. Above the upper staff, there are rhythmic flags and a double bar line with a repeat sign. Measure numbers 21 and 22 are indicated at the end of the system.

23 24

The second system of exercise 3 continues the two-staff notation. The upper staff features a melodic line with eighth notes and a half note. The lower staff continues with bass notes. Above the upper staff, there are rhythmic flags and a double bar line with a repeat sign. Measure numbers 23 and 24 are indicated at the end of the system.

/8/ 25 26

The third system of exercise 3 continues the two-staff notation. The upper staff features a melodic line with eighth notes and a half note. The lower staff continues with bass notes. Above the upper staff, there are rhythmic flags and a double bar line with a repeat sign. Measure numbers 25 and 26 are indicated at the end of the system.

27 28

The fourth system of exercise 3 continues the two-staff notation. The upper staff features a melodic line with eighth notes and a half note. The lower staff continues with bass notes. Above the upper staff, there are rhythmic flags and a double bar line with a repeat sign. Measure numbers 27 and 28 are indicated at the end of the system.

/9/ 29 30

The fifth system of exercise 3 continues the two-staff notation. The upper staff features a melodic line with eighth notes and a half note. The lower staff continues with bass notes. Above the upper staff, there are rhythmic flags and a double bar line with a repeat sign. Measure numbers 29 and 30 are indicated at the end of the system.

/10/ 31 32

4. [Hâne]

The first system of exercise 4 consists of two staves. The upper staff is in treble clef with a key signature of one sharp (F#) and a common time signature. It contains a melodic line with eighth and sixteenth notes. The lower staff is in bass clef and contains a bass line with whole and half notes. Above the upper staff, there are rhythmic flags and a double bar line with a repeat sign. Measure numbers 31 and 32 are indicated at the end of the system.

33 34

Musical notation for measures 33 and 34. The system consists of a treble clef staff and a bass clef staff. Measure 33 begins with a treble clef staff containing a sequence of eighth notes: D4, E4, F#4, G4, A4, B4, C5, B4, A4, G4, F#4, E4, D4. The bass clef staff contains a whole note D3. Measure 34 continues the treble staff with eighth notes: D4, E4, F#4, G4, A4, B4, C5, B4, A4, G4, F#4, E4, D4. The bass clef staff contains a whole note D3.

/11/ 35 36

Musical notation for measures 35 and 36. The system consists of a treble clef staff and a bass clef staff. Measure 35 begins with a treble clef staff containing a sequence of eighth notes: D4, E4, F#4, G4, A4, B4, C5, B4, A4, G4, F#4, E4, D4. The bass clef staff contains a whole note D3. Measure 36 continues the treble staff with eighth notes: D4, E4, F#4, G4, A4, B4, C5, B4, A4, G4, F#4, E4, D4. The bass clef staff contains a whole note D3.

37 38

Musical notation for measures 37 and 38. The system consists of a treble clef staff and a bass clef staff. Measure 37 begins with a treble clef staff containing a sequence of eighth notes: D4, E4, F#4, G4, A4, B4, C5, B4, A4, G4, F#4, E4, D4. The bass clef staff contains a whole note D3. Measure 38 continues the treble staff with eighth notes: D4, E4, F#4, G4, A4, B4, C5, B4, A4, G4, F#4, E4, D4. The bass clef staff contains a whole note D3.

/12/ 39 40

Musical notation for measures 39 and 40. The system consists of a treble clef staff and a bass clef staff. Measure 39 begins with a treble clef staff containing a sequence of eighth notes: D4, E4, F#4, G4, A4, B4, C5, B4, A4, G4, F#4, E4, D4. The bass clef staff contains a whole note D3. Measure 40 continues the treble staff with eighth notes: D4, E4, F#4, G4, A4, B4, C5, B4, A4, G4, F#4, E4, D4. The bass clef staff contains a whole note D3.

S.D.

Pēřrēf Gēvēřd, o. Dēvrikēbir

1. [Hâne]

Devr-i kebîr

The musical score is presented in two systems, each with a vocal line and a lute accompaniment. The time signature is 14/8. The key signature is one sharp (F#). The score is divided into eight measures, with rhythmic notation above the vocal line and tablature below. The tablature uses numbers 1-7 and symbols like 'D' and 'T' to indicate fret positions. The first system covers measures 1-4, and the second system covers measures 5-8. The lute accompaniment features a prominent bass line with a double bar line at the beginning of each system, indicating a change in the instrument's position or a specific rhythmic pattern. The vocal line is written in a treble clef and includes various note values and rests. The score is marked with '1. [Hâne]' and 'Devr-i kebîr'.

9 10

[Teslîm] 13 14

/4/ 15 16

2. [Hâne] 17 18

19 20

21 /6/ 22

Musical notation for measures 21 and 22. The system consists of a treble clef staff and a bass clef staff. Measure 21 features a treble staff with a sequence of eighth notes and a bass staff with a sequence of quarter notes. Measure 22 continues the treble staff with eighth notes and the bass staff with quarter notes. Above the treble staff, there are rhythmic flags and a double bar line. Above the bass staff, there are rhythmic flags and a double bar line.

23 24

Musical notation for measures 23 and 24. The system consists of a treble clef staff and a bass clef staff. Measure 23 features a treble staff with eighth notes and a bass staff with a sequence of quarter notes. Measure 24 features a treble staff with eighth notes and a bass staff with a sequence of quarter notes. Above the treble staff, there are rhythmic flags and a double bar line. Above the bass staff, there are rhythmic flags and a double bar line.

25 26

Musical notation for measures 25 and 26. The system consists of a treble clef staff and a bass clef staff. Measure 25 features a treble staff with eighth notes and a bass staff with a sequence of quarter notes. Measure 26 features a treble staff with eighth notes and a bass staff with a sequence of quarter notes. Above the treble staff, there are rhythmic flags and a double bar line. Above the bass staff, there are rhythmic flags and a double bar line.

/7/ 27 28

Musical notation for measures 27 and 28. The system consists of a treble clef staff and a bass clef staff. Measure 27 features a treble staff with eighth notes and a bass staff with a sequence of quarter notes. Measure 28 features a treble staff with eighth notes and a bass staff with a sequence of quarter notes. Above the treble staff, there are rhythmic flags and a double bar line. Above the bass staff, there are rhythmic flags and a double bar line.

29 30

Musical notation for measures 29 and 30. The system consists of a treble clef staff and a bass clef staff. Measure 29 features a treble staff with eighth notes and a bass staff with a sequence of quarter notes. Measure 30 features a treble staff with eighth notes and a bass staff with a sequence of quarter notes. Above the treble staff, there are rhythmic flags and a double bar line. Above the bass staff, there are rhythmic flags and a double bar line.

31 32

Musical notation for measures 31 and 32. The system consists of a treble clef staff and a bass clef staff. Measure 31 features a treble staff with eighth notes and a bass staff with a sequence of quarter notes. Measure 32 features a treble staff with eighth notes and a bass staff with a sequence of quarter notes. Above the treble staff, there are rhythmic flags and a double bar line. Above the bass staff, there are rhythmic flags and a double bar line.

33 34

/8/

Musical notation for measures 33 and 34. The system consists of a treble clef staff with a key signature of one sharp (F#) and a bass clef staff. Above the treble staff, there are rhythmic flags and a measure rest symbol. The treble staff contains a melodic line with eighth and sixteenth notes. The bass staff contains a bass line with quarter and eighth notes.

35 36

Musical notation for measures 35 and 36. The system consists of a treble clef staff with a key signature of one sharp (F#) and a bass clef staff. Above the treble staff, there are rhythmic flags and a measure rest symbol. The treble staff contains a melodic line with eighth and sixteenth notes. The bass staff contains a bass line with quarter and eighth notes, including a long note with a slur.

[Teslîm]

Musical notation for measures 37 and 38. The system consists of a treble clef staff with a key signature of one sharp (F#) and a bass clef staff. Above the treble staff, there are rhythmic flags and a measure rest symbol. The treble staff contains a melodic line with eighth and sixteenth notes. The bass staff contains a bass line with quarter and eighth notes. A double bar line with repeat dots is present at the end of measure 38.

Musical notation for measures 39 and 40. The system consists of a treble clef staff with a key signature of one sharp (F#) and a bass clef staff. Above the treble staff, there are rhythmic flags and a measure rest symbol. The treble staff contains a melodic line with eighth and sixteenth notes. The bass staff contains a bass line with quarter and eighth notes, including a long note with a slur.

37 38

/9/

3. [Hâne]

Musical notation for measures 37 and 38. The system consists of a treble clef staff with a key signature of one sharp (F#) and a bass clef staff. Above the treble staff, there are rhythmic flags and a measure rest symbol. The treble staff contains a melodic line with eighth and sixteenth notes. The bass staff contains a bass line with quarter and eighth notes.

39 40

Musical notation for measures 39 and 40. The system consists of a treble clef staff with a key signature of one sharp (F#) and a bass clef staff. Above the treble staff, there are rhythmic flags and a measure rest symbol. The treble staff contains a melodic line with eighth and sixteenth notes. The bass staff contains a bass line with quarter and eighth notes, including a long note with a slur.

41 42

Musical notation for measures 41 and 42. The system consists of a treble clef staff and a bass clef staff. The key signature has one sharp (F#). Above the treble staff, there are rhythmic flags and a measure rest symbol labeled "/10/". Measure 41 shows a melodic line in the treble staff and a bass line in the bass staff. Measure 42 continues the melodic line and bass line.

43 44

Musical notation for measures 43 and 44. The system consists of a treble clef staff and a bass clef staff. The key signature has one sharp (F#). Above the treble staff, there are rhythmic flags and a measure rest symbol. Measure 43 shows a melodic line in the treble staff and a bass line in the bass staff. Measure 44 continues the melodic line and bass line.

45 46

Musical notation for measures 45 and 46. The system consists of a treble clef staff and a bass clef staff. The key signature has one sharp (F#). Above the treble staff, there are rhythmic flags and a measure rest symbol. Measure 45 shows a melodic line in the treble staff and a bass line in the bass staff. Measure 46 continues the melodic line and bass line.

47 48

Musical notation for measures 47 and 48. The system consists of a treble clef staff and a bass clef staff. The key signature has one sharp (F#). Above the treble staff, there are rhythmic flags and a measure rest symbol labeled "/11/". Measure 47 shows a melodic line in the treble staff and a bass line in the bass staff. Measure 48 continues the melodic line and bass line.

49 50

Musical notation for measures 49 and 50. The system consists of a treble clef staff and a bass clef staff. The key signature has one sharp (F#). Above the treble staff, there are rhythmic flags and a measure rest symbol. Measure 49 shows a melodic line in the treble staff and a bass line in the bass staff. Measure 50 continues the melodic line and bass line.

51 52

Musical notation for measures 51 and 52. The system consists of a treble clef staff and a bass clef staff. The key signature has one sharp (F#). Above the treble staff, there are rhythmic flags and a measure rest symbol. Measure 51 shows a melodic line in the treble staff and a bass line in the bass staff. Measure 52 continues the melodic line and bass line.

53 /12/ 54

Musical notation for measures 53 and 54. The system consists of a treble clef staff and a bass clef staff. The key signature has one sharp (F#). Measure 53 contains a melodic line in the treble staff and a bass line in the bass staff. Measure 54 continues the melodic line and bass line.

55 56

Musical notation for measures 55 and 56. The system consists of a treble clef staff and a bass clef staff. The key signature has one sharp (F#). Measure 55 contains a melodic line in the treble staff and a bass line in the bass staff. Measure 56 continues the melodic line and bass line.

[Teslîm]

Musical notation for measures 57 and 58, marked with the instruction "[Teslîm]". The system consists of a treble clef staff and a bass clef staff. The key signature has one sharp (F#). Measure 57 contains a melodic line in the treble staff and a bass line in the bass staff. Measure 58 continues the melodic line and bass line.

Musical notation for measures 59 and 60. The system consists of a treble clef staff and a bass clef staff. The key signature has one sharp (F#). Measure 59 contains a melodic line in the treble staff and a bass line in the bass staff. Measure 60 continues the melodic line and bass line.

4. [Hâne] /13/ 57 * 58

Musical notation for measures 59 and 60, marked with the instruction "4. [Hâne]". The system consists of a treble clef staff and a bass clef staff. The key signature has one sharp (F#). Measure 59 contains a melodic line in the treble staff and a bass line in the bass staff. Measure 60 continues the melodic line and bass line.

59 60

Musical notation for measures 59 and 60. The system consists of a treble clef staff and a bass clef staff. The key signature has one sharp (F#). Measure 59 contains a melodic line in the treble staff and a bass line in the bass staff. Measure 60 continues the melodic line and bass line.

* /14/ 61 62

Musical notation for measures 61 and 62. The system consists of a treble clef staff and a bass clef staff. Measure 61 features a melodic line in the treble staff with eighth notes and a bass line with quarter notes. Measure 62 continues the melodic line with a trill-like figure and a bass line with quarter notes.

* 63 64

Musical notation for measures 63 and 64. Measure 63 has a melodic line with eighth notes and a bass line with a long note. Measure 64 features a melodic line with a trill and a bass line with a long note.

65 /15/ 66

Musical notation for measures 65 and 66. Measure 65 has a melodic line with eighth notes and a bass line with quarter notes. Measure 66 continues the melodic line with eighth notes and a bass line with quarter notes.

67 68

Musical notation for measures 67 and 68. Measure 67 has a melodic line with eighth notes and a bass line with quarter notes. Measure 68 features a melodic line with eighth notes and a bass line with quarter notes.

[Teslîm]

Musical notation for measures 69 and 70, marked [Teslîm]. Measure 69 has a melodic line with eighth notes and a bass line with quarter notes. Measure 70 continues the melodic line with eighth notes and a bass line with quarter notes.

Musical notation for measures 71 and 72. Measure 71 has a melodic line with eighth notes and a bass line with quarter notes. Measure 72 features a melodic line with eighth notes and a bass line with quarter notes.

8 9

Musical notation for measures 8 and 9. The system consists of a treble clef staff and a bass clef staff. The key signature has two sharps (F# and C#). Measure 8 features a melodic line in the treble staff starting with a quarter rest, followed by eighth and quarter notes. The bass staff has a simple harmonic accompaniment of quarter notes. Measure 9 continues the melodic and harmonic patterns.

10 11

/3/

Musical notation for measures 10 and 11. The system consists of a treble clef staff and a bass clef staff. The key signature has two sharps. Measure 10 features a melodic line in the treble staff with eighth and quarter notes. The bass staff has a simple harmonic accompaniment of quarter notes. Measure 11 continues the melodic and harmonic patterns.

12 13

Musical notation for measures 12 and 13. The system consists of a treble clef staff and a bass clef staff. The key signature has two sharps. Measure 12 features a melodic line in the treble staff with eighth and quarter notes. The bass staff has a simple harmonic accompaniment of quarter notes. Measure 13 continues the melodic and harmonic patterns.

14 15

/4/

Musical notation for measures 14 and 15. The system consists of a treble clef staff and a bass clef staff. The key signature has two sharps. Measure 14 features a melodic line in the treble staff with eighth and quarter notes. The bass staff has a simple harmonic accompaniment of quarter notes. Measure 15 continues the melodic and harmonic patterns.

16 17

Musical notation for measures 16 and 17. The system consists of a treble clef staff and a bass clef staff. The key signature has two sharps. Measure 16 features a melodic line in the treble staff with eighth and quarter notes. The bass staff has a simple harmonic accompaniment of quarter notes. Measure 17 continues the melodic and harmonic patterns.

18 19

[Teslím]

/5/

Musical notation for measures 18 and 19. The system consists of a treble clef staff and a bass clef staff. The key signature has two sharps. Measure 18 features a melodic line in the treble staff with eighth and quarter notes. The bass staff has a simple harmonic accompaniment of quarter notes. Measure 19 continues the melodic and harmonic patterns.

20 21

Musical notation for measures 20 and 21. The system consists of a treble clef staff and a bass clef staff. The key signature is two sharps (F# and C#). Measure 20 features a melodic line in the treble staff with eighth and quarter notes, and a bass line with half notes. Measure 21 continues the melodic line with a quarter rest at the beginning.

22

Musical notation for measure 22. The system consists of a treble clef staff and a bass clef staff. The key signature is two sharps. Measure 22 features a melodic line in the treble staff with eighth and quarter notes, and a bass line with half notes.

23 24

23 /6/ 24

Musical notation for measures 23 and 24. The system consists of a treble clef staff and a bass clef staff. The key signature is two sharps. Measure 23 features a melodic line in the treble staff with eighth and quarter notes, and a bass line with half notes. Measure 24 continues the melodic line with a quarter rest at the beginning.

25

2. [Hâne]

Musical notation for measure 25. The system consists of a treble clef staff and a bass clef staff. The key signature is two sharps. Measure 25 features a melodic line in the treble staff with a quarter rest at the beginning, followed by eighth and quarter notes, and a bass line with half notes.

26 27

Musical notation for measures 26 and 27. The system consists of a treble clef staff and a bass clef staff. The key signature is two sharps. Measure 26 features a melodic line in the treble staff with a quarter rest at the beginning, followed by eighth and quarter notes, and a bass line with half notes. Measure 27 continues the melodic line with a quarter rest at the beginning.

28 29

Musical notation for measures 28 and 29. The system consists of a treble clef staff and a bass clef staff. The key signature is two sharps. Measure 28 features a melodic line in the treble staff with a quarter rest at the beginning, followed by eighth and quarter notes, and a bass line with half notes. Measure 29 continues the melodic line with a quarter rest at the beginning.

30 31

/8/

Two staves of music. The upper staff is in treble clef with a key signature of two sharps (F# and C#). It contains eighth and sixteenth notes with various accidentals. The lower staff is in bass clef with a key signature of two sharps, containing quarter and eighth notes.

32 33

Musical score for measures 56-57. The system consists of a treble clef staff and a bass clef staff. The key signature has two sharps. Measure 56 contains a melodic line with eighth and quarter notes, and a bass line with quarter notes. Measure 57 continues the melodic line with a quarter rest at the beginning, followed by eighth and quarter notes.

58 [Teslîm]

Musical score for measures 58-59. The system consists of a treble clef staff and a bass clef staff. The key signature has two sharps. Measure 58 contains a melodic line with eighth and quarter notes, and a bass line with quarter notes. Measure 59 continues the melodic line with a quarter rest at the beginning, followed by eighth and quarter notes. A fermata is placed over the end of measure 59.

Musical score for measures 60-61. The system consists of a treble clef staff and a bass clef staff. The key signature has two sharps. Measure 60 contains a melodic line with eighth and quarter notes, and a bass line with quarter notes. Measure 61 continues the melodic line with a quarter rest at the beginning, followed by eighth and quarter notes. A fermata is placed over the end of measure 61.

Musical score for measures 62-63. The system consists of a treble clef staff and a bass clef staff. The key signature has two sharps. Measure 62 contains a melodic line with eighth and quarter notes, and a bass line with quarter notes. Measure 63 continues the melodic line with a quarter rest at the beginning, followed by eighth and quarter notes. A fermata is placed over the end of measure 63.

Musical score for measures 64-65. The system consists of a treble clef staff and a bass clef staff. The key signature has two sharps. Measure 64 contains a melodic line with eighth and quarter notes, and a bass line with quarter notes. Measure 65 continues the melodic line with a quarter rest at the beginning, followed by eighth and quarter notes. A fermata is placed over the end of measure 65.

3. [Hâne]

fol. [19v]

59

Musical notation for measures 59-60. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with a key signature of two sharps (F# and C#) and a common time signature. The bass staff contains a simple harmonic accompaniment. Measure 59 ends with a double bar line, and measure 60 begins with a new melodic phrase.

60

61

Musical notation for measures 60-61. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with a key signature of two sharps (F# and C#) and a common time signature. The bass staff contains a simple harmonic accompaniment. Measure 60 ends with a double bar line, and measure 61 begins with a new melodic phrase.

62

63

Musical notation for measures 62-63. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with a key signature of two sharps (F# and C#) and a common time signature. The bass staff contains a simple harmonic accompaniment. Measure 62 ends with a double bar line, and measure 63 begins with a new melodic phrase. A time signature change to 2/2 is indicated above measure 63.

64

65

Musical notation for measures 64-65. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with a key signature of two sharps (F# and C#) and a common time signature. The bass staff contains a simple harmonic accompaniment. Measure 64 ends with a double bar line, and measure 65 begins with a new melodic phrase.

66

67

Musical notation for measures 66-67. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with a key signature of two sharps (F# and C#) and a common time signature. The bass staff contains a simple harmonic accompaniment. Measure 66 ends with a double bar line, and measure 67 begins with a new melodic phrase. A time signature change to 3/4 is indicated above measure 67.

68

69

Musical notation for measures 68-69. The system consists of a treble clef staff and a bass clef staff. The treble staff contains a melodic line with a key signature of two sharps (F# and C#) and a common time signature. The bass staff contains a simple harmonic accompaniment. Measure 68 ends with a double bar line, and measure 69 begins with a new melodic phrase.

70 /4/ 71 *

72 [Teslîm]

4. [Hâne] /5/ 73

74 75

Musical notation for measures 74 and 75. The system consists of a treble clef staff and a bass clef staff. The key signature has two sharps (F# and C#). Measure 74 features a melodic line in the treble staff with eighth and quarter notes, and a bass line with quarter notes. Measure 75 continues the melodic line with a quarter rest and then eighth notes, while the bass line remains steady with quarter notes.

76 77

Musical notation for measures 76 and 77. Measure 76 shows a melodic line with eighth notes and a quarter rest, and a bass line with quarter notes. Measure 77 features a melodic line with eighth notes and a quarter rest, and a bass line with quarter notes.

78 79

Musical notation for measures 78 and 79. Measure 78 has a melodic line with eighth notes and a quarter rest, and a bass line with quarter notes. Measure 79 continues the melodic line with eighth notes and a quarter rest, and a bass line with quarter notes.

80 81

Musical notation for measures 80 and 81. Measure 80 features a melodic line with eighth notes and a quarter rest, and a bass line with quarter notes. Measure 81 continues the melodic line with eighth notes and a quarter rest, and a bass line with quarter notes.

82 83

Musical notation for measures 82 and 83. Measure 82 has a melodic line with eighth notes and a quarter rest, and a bass line with quarter notes. Measure 83 continues the melodic line with eighth notes and a quarter rest, and a bass line with quarter notes.

84 85

Musical notation for measures 84 and 85. Measure 84 features a melodic line with eighth notes and a quarter rest, and a bass line with quarter notes. Measure 85 continues the melodic line with eighth notes and a quarter rest, and a bass line with quarter notes.

86 [Teslîm]

The musical score is written in a key signature of two sharps (F# and C#). It begins at measure 86, marked with a double bar line and a fermata. The first system contains two staves: a treble clef staff with a melodic line and a bass clef staff with a harmonic accompaniment. The second system continues the melodic and harmonic development. The third system shows further melodic movement. The fourth system concludes the piece with a double bar line and repeat dots. The tempo or mood is indicated as [Teslîm].

20 21

Musical notation for measures 20 and 21. Measure 20 features a treble clef with a melodic line of eighth notes and a bass clef with a single half note. Measure 21 continues the melodic line with a key signature change to one sharp (F#) and a final half note in the bass.

1. 22 2. 23

Musical notation for measures 22 and 23, including first and second endings. Measure 22 has a treble clef with a melodic line and a bass clef with a half note. Measure 23 continues the melodic line and ends with a half note in the bass. A first ending bracket spans measures 22-23, and a second ending bracket spans measure 23.

2. [Hâne] 24

Musical notation for measure 24, labeled "2. [Hâne]". It features a treble clef with a melodic line and a bass clef with a half note. Measure 24 includes a key signature change to one sharp (F#).

25 26

Musical notation for measures 25 and 26. Measure 25 has a treble clef with a melodic line and a bass clef with a half note. Measure 26 continues the melodic line and ends with a half note in the bass.

27 28

Musical notation for measures 27 and 28. Measure 27 has a treble clef with a melodic line and a bass clef with a half note. Measure 28 continues the melodic line and ends with a half note in the bass.

29 30

Musical notation for measures 29 and 30. Measure 29 has a treble clef with a melodic line and a bass clef with a half note. Measure 30 continues the melodic line and ends with a half note in the bass.

31 /9/ 32

Musical notation for measures 31 and 32. Measure 31 contains a treble clef staff with a melodic line of eighth notes and a bass clef staff with a single whole note. Measure 32 continues the melodic line in the treble staff and has a whole note in the bass staff. Above measure 31 is a measure rest symbol with a colon and the number 31. Above measure 32 is a measure rest symbol with a colon and the number 32. A slash with the number 9 is positioned between the two measures.

33 34

Musical notation for measures 33 and 34. Measure 33 contains a treble clef staff with a melodic line of eighth notes and a bass clef staff with a single whole note. Measure 34 continues the melodic line in the treble staff and has a whole note in the bass staff. Above measure 33 is a measure rest symbol with a colon and the number 33. Above measure 34 is a measure rest symbol with a colon and the number 34.

35 /10/ 36

Musical notation for measures 35 and 36. Measure 35 contains a treble clef staff with a melodic line of eighth notes and a bass clef staff with a single whole note. Measure 36 continues the melodic line in the treble staff and has a whole note in the bass staff. Above measure 35 is a measure rest symbol with a colon and the number 35. Above measure 36 is a measure rest symbol with a colon and the number 36. A slash with the number 10 is positioned between the two measures.

37 38

Musical notation for measures 37 and 38. Measure 37 contains a treble clef staff with a melodic line of eighth notes and a bass clef staff with a single whole note. Measure 38 continues the melodic line in the treble staff and has a whole note in the bass staff. Above measure 37 is a measure rest symbol with a colon and the number 37. Above measure 38 is a measure rest symbol with a colon and the number 38.

39 [Teslîm]

Musical notation for measures 39 and 40. Measure 39 contains a treble clef staff with a melodic line of eighth notes and a bass clef staff with a single whole note. Measure 40 contains a treble clef staff with a melodic line of eighth notes and a bass clef staff with a single whole note. Above measure 39 is a measure rest symbol with a colon and the number 39. Above measure 40 is a measure rest symbol with a colon and the number 39. A double bar line with a fermata symbol is positioned between the two measures. The text "[Teslîm]" is written above measure 40.

Musical notation for measures 41 and 42. Measure 41 contains a treble clef staff with a melodic line of eighth notes and a bass clef staff with a single whole note. Measure 42 contains a treble clef staff with a melodic line of eighth notes and a bass clef staff with a single whole note. Above measure 41 is a measure rest symbol with a colon and the number 41. Above measure 42 is a measure rest symbol with a colon and the number 42.

Musical notation for the first system, measures 37-40. The upper staff is in treble clef with a key signature of one sharp (F#). The lower staff is in bass clef. Measure 37 starts with a rest, followed by eighth notes. Measure 38 has a 7-measure rest. Measure 39 has a 7-measure rest. Measure 40 ends with a double bar line.

1. | 2.

Musical notation for the first system, measures 41-42. The upper staff is in treble clef with a key signature of one sharp (F#). The lower staff is in bass clef. Measure 41 starts with a rest, followed by eighth notes. Measure 42 has a 7-measure rest. Measure 43 has a 7-measure rest. Measure 44 ends with a double bar line.

3. [Hâne]

Musical notation for the first system, measures 45-46. The upper staff is in treble clef with a key signature of one sharp (F#). The lower staff is in bass clef. Measure 45 starts with a rest, followed by eighth notes. Measure 46 has a 7-measure rest. Measure 47 has a 7-measure rest. Measure 48 ends with a double bar line.

Musical notation for the first system, measures 49-50. The upper staff is in treble clef with a key signature of one sharp (F#). The lower staff is in bass clef. Measure 49 starts with a rest, followed by eighth notes. Measure 50 has a 7-measure rest. Measure 51 has a 7-measure rest. Measure 52 ends with a double bar line.

Musical notation for the first system, measures 53-54. The upper staff is in treble clef with a key signature of one sharp (F#). The lower staff is in bass clef. Measure 53 starts with a rest, followed by eighth notes. Measure 54 has a 7-measure rest. Measure 55 has a 7-measure rest. Measure 56 ends with a double bar line.

Musical notation for the first system, measures 57-58. The upper staff is in treble clef with a key signature of one sharp (F#). The lower staff is in bass clef. Measure 57 starts with a rest, followed by eighth notes. Measure 58 has a 7-measure rest. Measure 59 has a 7-measure rest. Measure 60 ends with a double bar line.

CRITICAL REPORT

P. şēt‘ ħarç‘ığar, o. faht‘ē, Babanın

Source	TR-İçağatay YZPER2
Location	Fol. [01r], ll. 1–15
Makâm	Şedd-i karcığar
Usûl	Fahte
Genre	Peşrev
Attribution	Hampartsum Limonciyan (1768–1839)
Work No.	CMOi0385

Remarks

Heading (2nd hand): ‘Şedd-i karcığār Bābā'nıñ’.

Usûl fahte is divided into three rhythmic sections (4 + 4 + 2) in the manuscript. The source of the fahte usûl structure in the transcription is TR-İçağatay HDEF12.

Since the modal structure of makâm Şedd-i karcığar includes Uşşak genus on nevâ and Hicâz genus on gerdâniye, a key signature of the transcription includes dik hisâr and şehnâz, apart from segâh. While the pitch sign ♭ is usually interpreted as dik hisâr throughout the transcription, the editor interpreted some of them as hüseyinî because of modal changes in the melodic development of the composition.

The piece is attributed to *Usta Hampartsum* in TR-Istek [1], *Tatar* in TR-Iüne 211-9, *Baba* in TR-Iütâe TA249, pp. 2363–64; no attribution in TR-Iütâe 107 and TR-Iütâe 249, pp. 2355–56. The *Şed* prefix for the makâm is only mentioned in the YZPER2 version of the composition.

S.D.

[P.] Muhayēr, o. Bērēfşan, Mandōlinin

Source	TR-Içağatay YZPER2
Location	Fol. [02r], ll. 1–13
Makâm	Muhayyer
Usûl	Berefşân
Genre	Peşrev
Attribution	Mandolin Artin (d. ca. 1890)
Work No.	CMOi0435

Remarks

Heading (2nd hand): ‘Muḥayyer ber-efşân Mandolin’iñ’.

Since the top left corner of the folio is torn, the first letter of the heading and the first grouping of H1 is missing on the folio.

Usûl berefşân is divided into four rhythmic sections (4 + 4 + 4 + 4). The source of the usûl berefşân structure in the edition is TR-Içağatay HDEF12.

Depending on the modal changes and the direction of the melodic development in the composition, the editor preferred to interpret the pitch signs $\tilde{\sim}$ and $\tilde{\surd}$ as dik acem aşîrân and dik acem respectively in some cases of the transcription.

Since only one concordance could be found for this composition, this critical edition is crucial for the corpus of Ottoman music.

Structure

H1		3		1(T)	
H2		3		1(T)	
H3		3		1(T)	
H4		3		1(T)	

Pitch Set

- 12 Even though the second berefşân cycle ends on div. 12, the scribe includes one extra division after this division before the Teslîm. Since this division is identical with the eighth division, it is assumed that the scribe mistakenly wrote this section again. This division is omitted from the transcription.
- 30.3.4 Although the last sign of the group looks like ω (segâh), based on the seyir of the division it is interpreted as ω (tiz segâh).

Consulted Concordances

TR-Iütâe 249, pp. 2635–36.

S.D.

Péchréf Hidjaz karabatac, oussoul sakil (48)

Source	TR-Içağatay YZPER2
Location	Fol. [03r], ll. 1–12
Makâm	Hicâz
Usûl	Sakîl
Genre	Karabatak peşrevi
Attribution	—
Work No.	CMOi0094

Remarks

This piece is the only one in the manuscript in which italic Latin letters with French accents are used in the heading and the sections titled *batac*.

The usûl sakîl, which totals 48 beats, is divided into twelve rhythmic sections in the manuscript. The source of the sakîl usûl structure in the transcription is TR-Içağatay HDEF12. The sakîl pattern is recorded as 96 beats in TR-Içağatay HDEF12.

Batac sections are included in the latter part of the rhythmic cycle.

There is no indication by the scribe related to the practice of the *batac* sections of the piece. Based on the usage of both *batac* and *berâber* (tutti) terms as performance instruction for the relevant section in TR-Iütâe 109, the divisions that could be played by all instruments together begin from the ninth division of the sakîl cycle in H2 and H3.

At the beginning of H1, an unidentified sign similar to segno is interpreted as a different marking for the first hâne.

Depending on the modal changes and the direction of the melodic development in the composition, the editor preferred to interpret the pitch signs ♩ and ♩ as dik acem aşîrân and dik acem respectively in some cases of the transcription.

The composition is attributed to Arabzâde in TR-Istek [2]. There is no attribution in other consulted concordances.

P. Ēvicara, o. düeēk, dilhayat'ın

Source	TR-İçağatay YZPER2
Location	Fol. [04r], ll. 1–14
Makâm	Evcârâ
Usûl	Düyek
Genre	Peşrev
Attribution	Dilhayât Kalfâ (d. ca. 1735)
Work No.	CMOi0016

Remarks

Heading (2nd hand): 'Dilhayât'ın evc-ārâ düyek'.

The eight beat düyek is written as ağır (slow) düyek because of the division of the one usûl cycle into four groupings.

Among consulted concordances, the most similar version to the YZPER2 manuscript is located in TR-İüne 210-8.

No other consulted concordances include sextuplets similar to those found in YZPER2 version of the composition.

The relevant concordance located in TR-İüne 211-9 mentions 'Sultân Selîmiñ cāriyesiniñ' in its heading. The index included in TR-Iam 1537 mentions 'Cāriye-i Selîm Hân' for the attribution of the composition. The piece is attributed to Selîm III in TR-Istek [1], TR-Istek [2]. The remaining consulted concordances attribute the piece to Dilhayât Kalfâ.

Fol. [04v] includes sketches of Hampartsum notation with black ink. While the size of the notational script is bigger compared to other folios in TR-İçağatay YZPER2, the hand writing style of the notation on fol. [04v] is identical to the other notations in TR-İçağatay YZPER2.

Structure

Pitch Set

Notes on Transcription

- 9.3 There is a tie above the six-note group. No rhythmic indication is given for the group. It is interpreted here as a sextuplet. A number of other interpretations are possible, e.g. . Similar cases feature in 23.3, 36.3, 40.4, 44.4 and 48.3.
- 12.2.1 Based on the seyir of the Teslîm, it is evident that the kisver above the pitch sign  (dügâh) is missing. The editor interpreted this sign as  (kürdî).
- 24.2.1 The scribe mistakenly wrote the pitch sign for nevâ first, then corrected the sign to yegâh by scratching out the diagonal line of the sign.
- 31.1.4 In the manuscript, the first grouping of the division includes another pitch sign between  (sünbüle) and  (tiz segâh) that looks like either  (evc) or  (tiz çârgâh). Because the scribe combined the sign with  (tiz segâh), based on the seyir of the division, the editor interpreted this section as a correction by the scribe and this pitch sign is ignored in the transcription.

Consulted Concordances

Makâm	Sûz-ı dilârâ
Usûl	Çifte düyek
Genre	Peşrev
Attribution	Selîm III (1761–1808)
Work No.	CMOi0241

Remarks

Heading (2nd hand): ‘Sûz-ı dil-ârâ Sulţân Selîm Hân'ın düyek’.

A small portion of the top left corner of the folio [05r] is torn. This damage does not cover any part of the heading or the notational sections of the folio.

Based on the usage of (::) the end cycle sign, the usûl in this piece is interpreted as çifte düyek. The source of the çifte düyek usûl structure is TR-İçağatay HDEF12.

No other concordances include similar sextuplets found in the YZPER2 version of the composition.

Structure

H1		3	:	2(T)	:
H2		5	:	2(T)	:
H3		6	:	2(T)	:
H4		6	:	2(T)	:

Pitch Set**Notes on Transcription**

- 45.1 In the manuscript, before the first group of the division, the scribe has written down ✓ (nevâ) first, and scribbled the pitch sign afterwards.
- 48.4.1 The scribe has twice written ✓ (yegâh) pitch symbols on top of each other. Based on the seyir of the division, the editor interpreted it here as ✓ (nevâ).

49 The editor assumes the end cycle sign (::) here since it is apparent that the scribe mistakenly uses a division sign (:) after the usûl cycle ends.

Makâm	Kürdî
Usûl	Çifte düyek
Genre	Peşrev
Attribution	Sâ'atci (fl. ca. 1740)
Work No.	CMOi0396

Remarks

Heading (2nd hand): 'Sâ'atci'niñ kürdî düyek'.

Based on the usage of the (::) end cycle sign, the usûl here is interpreted as çifte düyek. The source of the çifte düyek usûl structure is TR-Içağatay HDEF12.

The variants of the composition in TR-Iüne 203-1 and TR-Iütæ 249, p. 2065 are recorded in makâm Acem kürdî.

Only the consulted concordances in TR-Iüne 203-1 and TR-Iütæ 249 mention *Mustafa* in addition to the sobriquet Sâ'atci as the composer of the piece.

Structure

H1	:	6	:		
H2	:	6	:	4	2(T)
H3		4		2(T)	
H4	:	2	:	1	2(T)

Pitch Set**Notes on Transcription**

- 2.3.2 The scribe mistakenly placed the kisver above م instead of $\text{م} : \text{م} \text{م} \text{م}$. Based on the seyîr of the relevant section and consulted concordance in TR-Iütæ 110, the use of hicâz as a pitch does not seem to be possible. The grouping is corrected as $\text{م} \text{م} \text{م} \text{م}$ with the kisver above hüseyinî for acem.

- 9 Originally written as ::; corrected to : by the scribe.

- 24 The scribe uses the letter ken (ک) for repetition at the end of div. 24 before the usûl cycle ends. To be able to complete the usûl cycle and connect the section with the beginning of H2, the second ending of H1 is included as an extra division. While this extra division is shown as the first ending, div. 25 is treated as the second ending in the transcription.
- 28 The editor assumes the end cycle sign (::) here since it is apparent that the scribe mistakenly uses the division sign (:) after the usûl cycle ends.

Consulted Concordances

Work No.	CMOi0057

Remarks

Heading (2nd hand): ‘Kantemir-oğlu’nuñ bûselik ‘aşîrân’.

The usûl berefşân is divided into four rhythmic sections (4 + 4 + 4 + 4) in the manuscript. The source of the berefşân usûl structure in the transcription is TR-Içağatay HDEF12.

All consulted concordances are four hânes. While the second section of H1 with two usûl cycles are part of H2 in these concordances, H2 of these versions of the composition includes extra sections compared to the YZPER2 version. The version in TR-lütâe 108 consist of six different *tertib* (En. order, formation) of H2.

Structure

H1	:	3	: :	2	:
H2	:	3	: :	2	:
H3	:	3	: :	3	:

Pitch Set

Notes on Transcription

- 11.2 Between the first and second grouping of the division, there are three groupings that have been crossed out by the scribe. These three groupings are identical with the ones in the next division. This implies that the scribe was copying this piece from another written source.

- 47.4 The scribe omits the duration sign for the first two pitch signs of the grouping: $\tilde{\xi} \mu \acute{\nu}$. Based on the remaining duration of the usûl cycle, the quarter note is assigned to both pitches: $\tilde{\xi} \mu \acute{\nu}$.
- 55.2.2 While the scribe wrote down the grace note as μ (râst) before the main pitch $\tilde{\nu}$ (acem aşıran), based on the seyîr of H3, the editor assumed this grace note as $\tilde{\xi}$ (zengûle).

H3	:	2	:	4	:	3(T)	:
H4		5	:	3(T)	:		

Pitch Set
Notes on Transcription

8.1.1 Since the duration usage of this division outnumbers the eight beat düyek, the editor preferred to interpret the quarter note rest at the beginning of the division as an eighth note rest.

17.1 Because of the half note duration of the second pitch sign, $\frac{1}{2}$ (tiz hisâr) is the only case in the notation that matches the second beat of usûl

düyek, the editor prefers to consider the first four beats of düyek as one grouping:  .

21.2.2 A dot under  (nevâ) is ignored in the transcription.
