Sēmāyi Hüsēyini kazancılar

Source	TR-Iütae 110
Location	P. 2, l. 36 – p. 3, l. 13
Makâm	Hüseynî
Usûl	Aksak semâî
Genre	Saz semâîsi
Attribution	Kazancılar
Index Heading	sēmāyi hüsēyini kazancılar
Work No.	CMOi0137

Remarks

Original heading: ‘Sēmāyi Hüsēyini kazancılar sēmāyi’. The redundant ‘sēmāyi’ has been deleted with dark ink.

Later heading in Ar. script: ‘Semā’i hüseynî Kazancılar’.

Structure

H1	:	8	:								
H2	:	4	: :	15		7*	: :	14*		5	:
H3	:	12	: :	5	:						
H4	:	4*	: :	4*	: :	5**	:				

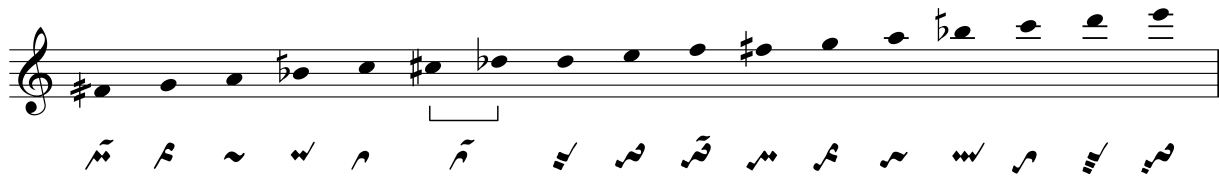

*sengîn semâî

**yürük semâî

The consulted concordances suggest different structures for the piece. Unlike in TR-Iütae 110, H2 begins with the subsection in usûl sengîn semâî in TR-Iütae 107 and TRT_MD_d_0369, while the previous two subsections are included in H1. In TR-Iütae 249, the first subsection of H2 as given in TR-Iütae 110 is notated as part of H1.

In TR-Iütae 107 and TR-Iboa TRT.MD.d_0369, H2–4 conclude with a marked teslîm-like melody. A similar unmarked subsection is notated in TR-Iütae 110 at the end of H2 and is repeated at the end of H3 in varied form but is not indicated following H4.

Pitch Set

Notes on Transcription

- 19 A *ken* is given above the div. sign in pencil, probably by the later hand that has also added the headings in Ar. script.
- 19.1–2 The groups are obscured by a folded page corner. The missing groups are taken from a repetition of the division at 27. Cf. also TR-Iütae 249.
- 20 The division has been struck out by a later hand in pencil.
- 25.1–2 The groups are partly obscured by a folded page corner. They are taken from a previous appearance of the group at 17. Cf. also TR-Iütae 249.
- 27 A *ken* is given above the div. sign in pencil.
- 27.4 The preceding group  was written twice and the second struck out by the scribe.
- 33 There is a faint *ken* written above the div. sign in pencil.
- 33.2.3 The pitch sign is slightly blurred.
- 44.1 The first group was struck out and rewritten.
- 48 There is a faint *ken* written above the div. sign in pencil.
- 64.1–2 There is an irrelevant dot between the groups.
