The teslîm (T) is not labelled and no reprise is indicated following H4. Divs. 8–15 are designated as T in OA374, OA377, and ST2. T is written out only in H1 and no reprise is indicated in H1–3 in OA374, but the labelling of T in H1 implies that it should be reprised after each hâne. OA377 indicates a reprise of T after H2 and H3, but not after H4. ST2 indicates a reprise of T after H4 only. As in NE203, T is written out in H1–3 but not H4 in TA249 (N), and is unlabelled. T is unlabelled in TA249 (A), and the material appears only in H1.
